PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Defined and executed comprehensive **test strategies**, plans, and scripts for enterprise applications, ensuring alignment with business requirements and quality standards.
- Developed and maintained **Java-based Selenium test automation code**, contributing to a **30% reduction** in manual regression testing effort.
- Designed and implemented **API test automation** using **REST Assured**, achieving over **95% API endpoint coverage** for critical microservices.
- Managed defect lifecycle, accurately recording, tracking, and debugging issues within **Azure DevOps**, collaborating with development teams to ensure timely resolution and reduce bug reoccurrence by **20%**.
- Supported **Agile Scrum teams** by participating in backlog refinement, providing accurate **test estimates** for sprint planning, and guiding development in automating tests.
- Reviewed and enhanced **test environments and processes**, implementing continuous improvement initiatives that increased test environment stability by **15%**.
- Configured and maintained **CI/CD pipelines** in **Azure DevOps**, integrating automated testing stages to ensure consistent quality checks across deployments.

SKILLS

Testing Frameworks & Tools – Java, Selenium, Cucumber BDD, REST Assured, BrowserStack, Postman/Bruno, JMeter, OpenText Web Inspect

DevOps & CI/CD – Azure DevOps, GIT, YAML, JSON, Jenkins

Databases – PostgreSQL

Cloud Platforms – Microsoft Azure

Methodologies – Agile Scrum, Behaviour-Driven Development (BDD)

Security Testing – OWASP Top 10 awareness

PROJECTS

Automated Payments Processing QA Framework

- Developed a **Java-based Selenium framework** to automate end-to-end testing for a payments operations dashboard, covering transaction initiation, processing, and reconciliation workflows.
- Implemented **API automation** using **REST Assured** to validate message payloads and service responses for payment gateway integrations, reducing manual API testing time by **40%**.
- Integrated automated tests into a **Jenkins CI/CD pipeline**, enabling daily regression runs and flagging critical issues before deployment to production environments.

ERP System Integration Test Suite

- Created a suite of automated tests using **Java and Spring Boot** to validate data synchronization and business process flows between the ERP system and ancillary operational platforms.
- Wrote **SQL queries** against **PostgreSQL** to verify data integrity and perform pre- and post-test data validation, catching **~15%** of integration defects during the test execution phase.
- Collaborated with business analysts to define acceptance criteria and ensure comprehensive test coverage for critical ERP functionalities, supporting successful UAT cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
