HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented responsive UI components in **React** and **TypeScript** for customer-facing features of an enterprise SaaS application, directly translating product requirements into functional code.
- Integrated **React** components with state management solutions like **Redux**, ensuring consistent data flow and predictable application behavior across complex user interfaces.
- Developed and maintained a suite of **TypeScript** unit and integration tests using **Jest** and **React Testing Library**, increasing code coverage by **18%** for critical frontend modules.
- Collaborated with product managers and designers to refine feature specifications, translating loosely defined requirements into actionable development tasks and technical designs.
- Owned the end-to-end lifecycle of medium-sized features, from initial design documentation and coding through testing, deployment, and post-incident analysis in a production environment.
- Actively participated in code reviews, providing constructive feedback to peers and junior engineers to maintain code quality and share best practices across the frontend team.
- Containerized frontend applications using **Docker** for consistent local development and streamlined deployment pipelines managed via **Jenkins**.

SKILLS

Frontend Technologies – React, TypeScript, JavaScript, HTML, CSS, Redux, Jest, React Testing Library

Backend & Cloud – Java, Spring Boot, Python, AWS, Docker, Jenkins, Git, REST APIs

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, CI/CD, AI-assisted development

Data Analytics – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

PROJECTS

Customer Engagement Dashboard Rebuild

- Rebuilt a critical customer engagement dashboard using **React** and **TypeScript**, replacing a legacy jQuery interface to improve user experience and data visualization clarity.
- Implemented interactive charting components and real-time data updates, enabling over **500** enterprise users to monitor key performance indicators more effectively.
- Developed a lightweight state management pattern with Context API and `useReducer` to handle complex UI state for multiple data-driven modules.

Internal Developer Tooling Enhancement

- Developed a **Python** CLI tool to automate the generation of boilerplate code for new React components, reducing setup time for new features by approximately **30%**.
- Integrated the tool with existing CI/CD pipelines, ensuring consistent project structure and adherence to coding standards across the engineering team.
- Designed the tool's interface and commands for ease of use by fellow developers, incorporating user feedback to refine its functionality.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
