PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Partnered with enterprise customers to define integration requirements for their manufacturing systems, translating business needs into technical specifications for AI-driven workflows.
- Designed and built **API integrations** between the Poka platform and customer **ERP** and **MES** systems, enabling seamless data exchange and process automation.
- Developed **AI-powered agents** using modern **LLM frameworks** to automate tasks such as intelligent triage of operational issues and document processing for frontline teams.
- Led discovery sessions with manufacturing clients, identifying opportunities to apply AI and Poka's platform to drive **process improvements** and operational efficiency, resulting in ~15% reduction in ticket resolution times for pilot customers.
- Owned end-to-end delivery of AI and integration solutions, from initial scoping and architecture design through to implementation, testing, and customer handoff in under 6 weeks.
- Contributed to pre-sales technical discussions and workshops, demonstrating Poka's capabilities and shaping high-impact use cases for strategic enterprise deals.
- Containerized and deployed **Python-based AI workflow services** to a **Kubernetes** cluster on **AWS**, ensuring scalable and reliable operation for enterprise customer deployments.

SKILLS

AI/ML – LLM, Generative AI, AI Agents, OpenAI API, Anthropic API, RAG, Vector Databases, Prompt Engineering

Backend Development – Python, Node.js, NestJS, Java, Spring Boot, FastAPI, REST APIs, Microservices
Integrations – APIs, Middleware, ERP, MES, CMMS, System Integration

Cloud & DevOps – AWS, Kubernetes, Docker, CI/CD, Jenkins, Git

Data & Analytics – SQL, Data Warehousing, Data Modelling, Power BI, DAX, Tableau, R

Methodologies – Agile, Scrum, Lean Manufacturing Concepts

PROJECTS

AI-Powered Operator Assistant for Manufacturing Floor

- Developed a **Python**-based agent using **OpenAI API** to provide real-time guidance and troubleshooting assistance to frontline operators, processing ~500 queries per day.
- Integrated the agent with a manufacturing **MES** system via REST APIs to fetch contextual operational data for more relevant responses.
- Built a simple web interface using **FastAPI** for operators to interact with the AI assistant, deployed on **AWS Lambda**.

Customer Integration Playbook for ERP Data Sync

- Designed and implemented a reusable integration pattern in **Python** to synchronize production order data between Poka and customer **ERP** systems.
- Created comprehensive technical documentation and a setup guide for customer technical teams, reducing onboarding time for this specific integration by an estimated 30%.
- Applied **Agile methodologies** to iterate on the integration template based on feedback from two pilot enterprise customers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
