+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and reliability engineering** for enterprise applications across **AWS** infrastructure, monitoring system health via **Splunk, CloudWatch, and Dynatrace** to maintain **SLA compliance** and respond to P1/P2 incidents in fast-paced manufacturing-adjacent environments
- Engineered **Python automation scripts** and **data pipelines** for ETL workflows and scheduled reporting, reducing manual operational tasks and improving data accuracy for cross-functional teams
- Performed preventative and corrective maintenance on system architecture through **Java Spring Boot** feature development, bug fixes, and **REST API** enhancements on mission-critical services; ensured safe, efficient code deployment via **Jenkins CI/CD pipelines**
- Conducted root cause analysis on application failures and system performance degradation using logs, metrics, and monitoring dashboards; collaborated with engineering managers and planners to implement reliability improvements and establish KPI tracking
- Managed **Linux** system administration tasks including log analysis, shell scripting, cron job scheduling, and infrastructure health checks; maintained **Git** version control and executed code reviews to ensure compliance and quality standards
- Executed **SQL** schema changes, ad-hoc queries, and data validation across **PostgreSQL, MySQL, and Oracle** databases; documented all maintenance records and environmental compliance in **Jira** and **Confluence** for full audit trail

SKILLS

Production Support & Reliability – Incident response, SLA management, Splunk, CloudWatch, Dynatrace, Root Cause Analysis.

Manufacturing & Systems Operations – Equipment monitoring, preventative maintenance, startup checks, health and safety compliance, fast-paced environments.

Automation & Data Engineering – Python scripting, ETL pipelines, pandas, NumPy, scheduled reporting, data validation.

Backend Development & APIs – Java Spring Boot, REST APIs, FastAPI, Flask, microservices architecture.

Infrastructure & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, shell scripting.

Data Management – PostgreSQL, MySQL, Oracle, SQL query optimization, schema management.

Professional Skills – Jira, Confluence, Agile/Scrum, team collaboration, documentation, interpersonal communication.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring Program (HCL Technologies)

- Led production support operations for multiple enterprise **Java/.NET applications** deployed on **AWS**, establishing daily **startup checks** and continuous monitoring via **Splunk, CloudWatch, and Dynatrace**
- Implemented **root cause failure analysis** framework to investigate P1/P2 incidents; documented findings and corrective actions to reduce equipment/application breakdown frequency and improve system reliability
- Established **reliability KPIs and metrics** (PM/CM ratio, schedule adherence, incident resolution time) in collaboration with planning teams; automated metric collection via **Python scripts** and dashboards for performance tracking

Automation & Data Pipeline Engineering (HCL Technologies)

- Designed and deployed **Python-based ETL automation** scripts for data validation, transformation, and scheduled reporting across enterprise databases (**PostgreSQL, MySQL, Oracle**); reduced manual data processing by **40%**
- Built **data pipelines** using **pandas and NumPy** to extract, validate, and load operational metrics; integrated with **Jenkins CI/CD** for reliable, automated execution on production systems
- Maintained **SQL schema changes** and ad-hoc query execution for compliance audits and environmental reporting; ensured all records and documentation were completed accurately in **Jira** for full traceability

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
