PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and monitoring** of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, responding to **P1/P2 incidents** with SLA compliance and rapid troubleshooting to minimise system downtime.
- Coordinated cross-functional **technical liaisons** between development teams and infrastructure providers, translating complex technical requirements into actionable repair and maintenance tasks with clear communication and pragmatic problem-solving.
- Maintained accurate **system logs and maintenance records** using **Jira and Confluence**, documenting all technical interventions, service updates, and operational metrics to ensure compliance and audit readiness.
- Developed **Python automation scripts** for data validation, ETL pipelines, and scheduled reporting tasks, improving operational efficiency and enabling faster decision-making through reliable data systems.
- Supported **REST API development and database management** using **SQL (PostgreSQL, MySQL, Oracle)** and **Java Spring Boot**, ensuring data integrity and system reliability across enterprise applications.
- Collaborated within **Agile/Scrum teams** to meet operational targets, leveraging **Git, Jenkins CI/CD pipelines**, and code review processes to deliver stable, well-documented solutions with focus on customer satisfaction.

SKILLS

Technical Support & Troubleshooting – production monitoring, incident response, system diagnostics, SLA management, problem-solving.

Systems & Platforms – Splunk, CloudWatch, Dynatrace, AWS (EC2, S3, Lambda), Docker, Linux.

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, Python scripting, ETL, data validation.

Development & APIs – Java Spring Boot, REST APIs, Flask, FastAPI, Git, Jenkins.

Administration & Documentation – Jira, Confluence, system logging, Agile workflows, technical documentation.

Professional Communication – cross-team liaison, technical reporting, professional correspondence, stakeholder engagement.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Support (HCL Technologies)

- Provided **daily production support** for mission-critical Java and .NET applications, using **Splunk and Dynatrace** for real-time monitoring and root-cause analysis of performance issues.

- Managed **incident response** workflows for P1/P2 outages, liaising with development and infrastructure teams to coordinate repairs and restoration, consistently meeting agreed SLAs.
- Performed **Linux log analysis** and shell scripting to automate diagnostic tasks, reducing manual troubleshooting time and improving system visibility across the infrastructure.

Data Pipeline & System Integration Automation (HCL Technologies)

- Designed and deployed **Python ETL scripts** for automated data validation, transformation, and scheduled reporting, ensuring data accuracy across multiple database systems (**PostgreSQL, MySQL, Oracle**).
- Developed **REST APIs** using **Java Spring Boot** to enable seamless integration between enterprise applications and external systems, improving data flow and operational efficiency.
- Implemented **CI/CD pipelines** via **Jenkins** and **Git** version control to automate deployment and testing workflows, reducing release cycles and improving code quality through structured code reviews.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
