PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, enabling **automated deployments** across development, staging, and production environments for enterprise Java/.NET applications serving **500+** concurrent users.
- Built and optimized **cloud infrastructure** on **AWS (EC2, S3, Lambda, CloudWatch)**, implementing **infrastructure-as-code** principles to provision consistent, reproducible environments and reduce manual provisioning overhead by **40%**.
- Engineered **containerization** strategies using **Docker** to standardize application deployment, improving environment consistency across teams and accelerating onboarding of new microservices by **3 weeks**.
- Developed **Python automation scripts** and **ETL data pipelines** for production monitoring, SLA tracking, and P1/P2 incident response using **Splunk, CloudWatch, and Dynatrace**, reducing mean-time-to-resolution (MTTR) by **25%**.
- Implemented observability and monitoring frameworks leveraging **Splunk, Dynatrace, and CloudWatch** to track application health, distributed system performance, and infrastructure metrics, enabling proactive incident detection and resolution.
- Collaborated in **Agile/Scrum ceremonies** to define sprint tasks, estimate DevOps work, and drive continuous improvement of deployment processes and developer tooling across **8+ engineering teams**.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, infrastructure-as-code principles, cloud-native architecture.

CI/CD & Automation – Jenkins, Git, GitLab, pipeline automation, code reviews, deployment orchestration.

Programming & Scripting – Python, Java, Spring Boot, bash/shell scripting, REST APIs.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, ETL pipelines, data validation.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, SLA management, incident response, log analysis.

DevOps & Systems – Linux, networking fundamentals, Jira, Confluence, Agile methodologies.

Development Practices – version control, code quality, maintainability, secure engineering, knowledge sharing.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Architected production support and **observability framework** for mission-critical enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**, enabling real-time SLA tracking and P1/P2 incident response.
- Developed **Python automation scripts** to aggregate monitoring data, generate scheduled reports, and trigger automated alerts, reducing manual intervention by **35%** and improving incident detection time.
- Established monitoring dashboards and health check frameworks to track distributed system performance, application metrics, and infrastructure health across **12+ production services**.

CI/CD Pipeline Automation & Infrastructure Standardization (HCL Technologies)

- Designed and implemented **Jenkins CI/CD pipelines** with **Git branching strategies**, automated testing, and **Docker containerization** to enable consistent, repeatable deployments across development and production environments.
- Provisioned **AWS cloud infrastructure (EC2, S3, Lambda, CloudWatch)** and containerized workloads, establishing **infrastructure-as-code** patterns that improved environment reproducibility and reduced provisioning time from **2 weeks to 3 days**.
- Collaborated with **8+ development teams** to integrate DevOps tooling, standardize deployment practices, and drive continuous improvement in code quality, testing coverage, and deployment reliability through knowledge sharing and mentorship.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
