+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment workflows for enterprise Java and .NET applications, reducing manual deployment overhead by **40%**.
- Implemented **infrastructure monitoring and optimization** across production environments using **Splunk**, **CloudWatch**, and **Dynatrace**, managing SLAs and enabling rapid **P1/P2 incident response** with average resolution time under 2 hours.
- Developed **Python automation scripts** and **ETL data pipelines** to streamline operational workflows, scheduled reporting, and infrastructure provisioning, eliminating repetitive manual tasks and improving team productivity.
- Provisioned and optimized **AWS cloud infrastructure** including **EC2, S3, Lambda, and CloudWatch**, implementing containerization with **Docker** and establishing infrastructure best practices for scalability and cost efficiency.
- Performed **Linux system administration**, log analysis, and shell scripting for automation, monitoring, and troubleshooting across distributed production systems; managed cron jobs and scheduled maintenance workflows.
- Collaborated with cross-functional engineering teams in **Agile/Scrum environments**, leveraging **Jira** and **Confluence** for ticketing, defect tracking, and continuous process improvement aligned with DevOps best practices.

SKILLS

CI/CD & DevOps – Jenkins, Git, CI/CD pipeline design, automation, infrastructure optimization.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Infrastructure as Code concepts.

Programming & Scripting – Python, Java, Shell scripting, automation tooling.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, ETL, data pipelines.

Monitoring & Observability – Splunk, CloudWatch, Dynatrace, log analysis.

Application Development – Spring Boot, REST APIs, microservices.

Collaboration & Tools – Jira, Confluence, Agile/Scrum, code reviews.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise CI/CD Pipeline Modernization (HCL Technologies)

- Architected and deployed **Jenkins-based CI/CD pipelines** for multiple enterprise Java and .NET services, integrating automated testing, code reviews, and multi-stage deployments to **AWS** environments.
- Implemented **Docker containerization** standards for application consistency, reducing environment-related deployment failures by **35%** and accelerating release cycles.
- Established **Git branching strategies** and automated code quality checks, improving team collaboration and reducing manual intervention during the deployment process.

Production Monitoring & Incident Response System (HCL Technologies)

- Built comprehensive monitoring solution using **Splunk, CloudWatch, and Dynatrace**, achieving real-time visibility into application performance and infrastructure health across production systems.
- Developed **Python automation scripts** for alert aggregation, log parsing, and incident escalation, reducing mean time to detect (MTTD) by **50%** and enabling faster root-cause analysis.
- Established SLA-driven incident response workflows supporting P1/P2 critical issues, with documented runbooks and cross-team communication protocols that improved overall production stability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
