PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **reliability engineering and production support** for enterprise applications serving **500K+ transactions daily**, leveraging **Splunk, CloudWatch, and Dynatrace** for real-time monitoring, SLA management, and P1/P2 incident response in dynamic, high-stakes environments.
- Designed and implemented **data pipelines and ETL workflows** using **Python**, enabling **automated reporting** and data validation across PostgreSQL, MySQL, and Oracle databases; reduced manual reporting overhead by **40%**.
- Developed and maintained **Java Spring Boot REST APIs** and microservices on **AWS infrastructure** (EC2, S3, Lambda, CloudWatch), supporting feature delivery and bug fixes within Agile/Scrum ceremonies and collaborative code review processes.
- Architected **CI/CD pipelines using Jenkins and Git**, enabling automated builds, testing, and deployments; containerised applications with **Docker** to improve consistency across development, staging, and production environments.
- Demonstrated strong analytical and problem-solving capabilities through **Linux administration**, shell scripting, log analysis, and ad-hoc SQL query development; completed **MSc in Data Analytics**, bridging technical infrastructure expertise with quantitative insight and sustainability-focused data analysis.
- Collaborated cross-functionally with product, infrastructure, and architecture teams using **Jira, Confluence, and Agile methodologies**; mentored junior engineers on best practices in cloud deployment, API design, and operational excellence.

SKILLS

Backend & Cloud Infrastructure – Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins.

Data Engineering & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, ETL, data pipelines, reporting automation.

DevOps & Monitoring – CI/CD pipelines, Git, Splunk, Dynatrace, CloudWatch, Docker containerisation, SLA management.

Development Tools & Collaboration – Jira, Confluence, Agile/Scrum, Git branching, code review, shell scripting.

Frontend Exposure – Angular, React, HTML/CSS.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Academic Band 7/9.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Owned production support and real-time monitoring for **Java and .NET applications** using **Splunk, CloudWatch, and Dynatrace**, managing SLA commitments and responding to P1/P2 incidents with **99.2% uptime**.
- Automated incident detection and alerting through custom dashboards and log aggregation, reducing mean-time-to-response (MTTR) by **35%** and improving operational visibility across distributed systems.
- Collaborated with development and infrastructure teams to design resilience patterns, implement graceful degradation strategies, and document runbooks for critical failure scenarios.

Data Pipeline & Reporting Automation (HCL Technologies)

- Architected and deployed **Python-based ETL pipelines** on **AWS Lambda** to extract, transform, and load data from multiple sources (PostgreSQL, MySQL, Oracle) into centralised data stores.
- Engineered **scheduled reporting workflows** with automated validation and anomaly detection using **pandas and NumPy**, eliminating manual reconciliation and delivering insights **3 days faster** to business stakeholders.
- Integrated pipelines with **CI/CD via Jenkins** and containerised dependencies with **Docker**, enabling reliable, reproducible deployments and reducing deployment failures by **60%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
