PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Executed **smoke testing and regression testing** across enterprise **Java/.NET applications** in production environments, validating releases and feature updates while maintaining **99%+ SLA uptime** through proactive issue identification.
- Identified, documented, and reported bugs with clear accuracy using **Jira** for issue tracking and defect management; participated in bug triage discussions with developers and product teams to prioritise and resolve critical issues.
- Monitored application performance and reliability using **Splunk, CloudWatch, and Dynatrace**; performed log analysis and data validation across **PostgreSQL, MySQL, and Oracle** databases to support quality assurance and incident response.
- Validated functionality across different environments and platforms by leveraging **browser developer tools** to inspect elements, monitor HTTP requests, and troubleshoot application issues; executed ad-hoc testing to ensure cross-browser compatibility.
- Collaborated with cross-functional teams including developers, product managers, and operations; maintained detailed **test documentation and process improvements** in **Confluence** to standardise QA workflows and enhance team efficiency.
- Demonstrated strong attention to detail and clear communication in fast-paced Agile/Scrum environments; contributed to **CI/CD pipeline quality** through **Git** code reviews and structured testing practices across containerised **Docker** environments.

SKILLS

QA & Testing – smoke testing, regression testing, manual test case execution, bug reporting, test documentation.

Test Management & Tracking – Jira, bug triage processes, defect tracking, issue prioritisation.

Monitoring & Troubleshooting – Splunk, CloudWatch, Dynatrace, browser developer tools, log analysis.

Databases & Data Validation – PostgreSQL, MySQL, Oracle, SQL queries, schema inspection.

Development & DevOps Context – Java Spring Boot, REST APIs, Docker, Jenkins CI/CD, Git.

Cross-browser & Mobile Testing – browser compatibility validation, mobile application testing, responsive design verification.

Core Competencies – attention to detail, clear communication, structured documentation, Agile/Scrum collaboration, Linux command line.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & QA Support (HCL Technologies)

- Performed continuous **smoke testing and regression testing** on mission-critical **Java and .NET applications** deployed across **AWS infrastructure (EC2, S3)**; validated feature releases and patches before production rollout.
- Collaborated with development teams to execute detailed **test cases** and participated in **bug triage discussions**, reducing critical defects by identifying root causes through **log analysis** and **CloudWatch monitoring**.
- Maintained comprehensive **test documentation** in **Confluence** and tracked all defects in **Jira**, ensuring clear communication of issues across product, development, and operations teams in Agile sprints.

Data Pipeline Quality & Validation (HCL Technologies)

- Validated **ETL data pipelines** and scheduled reporting workflows by executing **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases; identified data inconsistencies and documented findings for resolution.
- Supported quality assurance for **Python automation scripts** used in data processing; verified correctness of transformed datasets and monitored pipeline execution through **CloudWatch logs** and **Splunk dashboards**.
- Used **browser developer tools** and **API inspection techniques** to validate **REST API responses** and JSON data structures returned by backend services, ensuring data integrity across application layers.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
