PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered production support and reliability engineering for enterprise **Java** and **.NET** applications across **AWS** infrastructure, managing SLA compliance and resolving **P1/P2 incidents** with **Splunk**, **CloudWatch**, and **Dynatrace** monitoring tools; on-call rotation experience aligned with 24x7 operational requirements.
- Automated operational workflows through **Python** scripting for data pipelines, ETL processes, and scheduled reporting; developed **shell scripts** and **Linux** automation to reduce manual operational overhead and improve system efficiency.
- Engineered and maintained **REST APIs** using **Java Spring Boot**, contributing to feature development, bug fixes, and service reliability improvements on production systems supporting enterprise customers.
- Optimized database performance and operational data access through **SQL** expertise (**PostgreSQL**, **MySQL**, **Oracle**), executing ad-hoc queries, schema changes, and data validation to support incident response and operational analytics.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git**, ensuring code quality through peer reviews and enabling rapid, reliable deployments; containerized applications using **Docker** to standardize operational environments.
- Leveraged **AWS** services including **EC2**, **S3**, **Lambda**, and **CloudWatch** to support infrastructure operations; demonstrated cloud platform proficiency essential for European Sovereign Cloud managed operations.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux administration, shell scripting.

Programming & Scripting – Python, Java, SQL (PostgreSQL, MySQL, Oracle), Flask, FastAPI.

Operations & Reliability – Production support, incident response, SLA management, monitoring (Splunk, CloudWatch, Dynatrace), on-call rotation.

DevOps & Version Control – Jenkins, CI/CD pipelines, Git, Jira, Agile/Scrum.

Backend Development – Spring Boot, REST API design, service-oriented architecture.

Data Engineering – ETL pipelines, data validation, pandas, NumPy.

Certifications & Education – MSc Data Analytics (National College of Ireland), Full Stack Java Spring Boot & Angular, IELTS Band 7/9.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Incident Management (HCL Technologies)

- Managed production support for multi-tier **Java** and **.NET** applications deployed on **AWS**, reducing mean-time-to-resolution (MTTR) for P1 incidents through systematic log analysis and root-cause investigation.
- Implemented automated alerting and anomaly detection workflows using **CloudWatch** and **Splunk**, enabling proactive identification of operational issues before customer impact.
- Developed **Python**-based diagnostic scripts and automated runbooks to accelerate incident triage and resolution, improving operational efficiency and reducing manual overhead during on-call rotations.

Data Pipeline Automation & Infrastructure Optimization (HCL Technologies)

- Engineered **Python**-based ETL pipelines and scheduled reporting automation using **Linux** cron jobs and shell scripting, improving data freshness and operational visibility across enterprise systems.
- Optimized database queries and schema performance across **PostgreSQL**, **MySQL**, and **Oracle** environments, reducing query latency and supporting faster incident diagnostics.
- Containerized legacy applications using **Docker** and automated deployment workflows via **Jenkins CI/CD**, standardizing operational environments and improving reliability of service delivery.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
