+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed **reliability and quality assurance strategies** for enterprise Java/.NET applications in production environments, leveraging **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and achieving **99.5% SLA compliance** through rapid P1/P2 incident response and root-cause analysis.
- Developed **Python automation scripts** and **ETL data pipelines** for continuous quality measurement, validation, and scheduled reporting; processed large datasets using **pandas and NumPy** to drive yield analysis and process optimization initiatives.
- Built and optimized **REST APIs** and microservices using **Java Spring Boot**, implementing feature enhancements and bug fixes while ensuring robust error handling and performance; supported multi-site test solution architecture patterns.
- Proficient in **SQL (PostgreSQL, MySQL, Oracle)** for ad-hoc data queries, schema optimization, and validation; demonstrated strong analytical skills in identifying data anomalies and supporting characterization efforts across product portfolios.
- Architected **CI/CD pipelines using Jenkins and Git** with automated code reviews and deployment workflows; containerized applications using **Docker** to support efficient, reproducible test development and mass production readiness.
- Collaborated cross-functionally with development and operations teams in **Agile/Scrum environments** using **Jira and Confluence**; demonstrated strong teamwork and communication in supporting fast-ramp high-volume product initiatives across distributed teams.

SKILLS

Programming & Software – Java, Python, SQL, Visual Basic, C.

Backend & APIs – Spring Boot, REST APIs, FastAPI, Flask.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, pandas, NumPy.

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace.

Core Competencies – Test development, reliability engineering, quality assurance, analytical problem-solving, DFT concepts.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Test Automation Framework (HCL Technologies)

- Led **production support and monitoring** of multi-tier Java/.NET applications, designing measurement methodologies and quality metrics using **Splunk, CloudWatch, and Dynatrace** to detect anomalies and optimize system performance.
- Developed comprehensive **Python automation framework** for continuous data validation, ETL workflows, and scheduled quality reporting; reduced manual test execution time by **40%** through intelligent script scheduling and error handling.
- Collaborated with cross-functional teams to define **DFT principles** and improvement initiatives; analyzed yield data using **SQL and pandas** to identify root causes and drive solution optimization for mass production readiness.

Microservices Development & CI/CD Pipeline Optimization (HCL Technologies)

- Designed and implemented **Spring Boot REST APIs** for new microservices, ensuring scalability, reliability, and efficient integration with existing enterprise systems across multiple deployment environments.
- Architected **Jenkins CI/CD pipelines** with automated testing, code quality checks, and deployment workflows using **Git branching strategies** and **Docker containerization**, reducing deployment time by **35%** and improving deployment reliability.
- Performed **Linux system administration**, shell scripting, and log analysis to troubleshoot infrastructure issues; implemented automated health checks and monitoring to support high-volume product deployment cycles.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
