

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **production Python data pipelines** for ETL and scheduled reporting, processing enterprise datasets and validating data quality across **PostgreSQL, MySQL, and Oracle** databases—enabling reliable data ingestion for analytics workloads.
- Built and maintained **ML monitoring and observability** for enterprise Java/.NET applications using **Splunk, Dynatrace, and CloudWatch**, identifying performance anomalies and reducing P1/P2 incident response time by rapid root-cause analysis and alerting.
- Developed **REST APIs and microservices** using **Java Spring Boot** with hands-on experience in feature development, debugging, and iterative deployment through **Jenkins CI/CD pipelines** and **Git** workflows in Agile environments.
- Automated infrastructure and data workflows using **Python scripting**, shell scripting, and cron jobs on **Linux**; containerized applications with **Docker** and deployed compute-intensive jobs on **AWS (EC2, S3, Lambda, CloudWatch)**.
- Analyzed large-scale operational data and enterprise metrics using **pandas, NumPy**, and SQL to support business intelligence, anomaly detection, and predictive insights for cross-functional stakeholders.
- Collaborated with business teams and platform engineers to scope technical requirements, review code, track deliverables in **Jira/Confluence**, and ship solutions aligned with enterprise SLAs and business objectives.

SKILLS

Machine Learning & Python – Python, pandas, NumPy, scikit-learn, model development, production ML pipelines.

Data Engineering & SQL – ETL, data wrangling, PostgreSQL, MySQL, Oracle, data validation, schema design.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Backend & APIs – Java Spring Boot, REST APIs, microservices, Flask, FastAPI.

DevOps & Monitoring – Jenkins, Git, CI/CD pipelines, Splunk, Dynatrace, CloudWatch, observability.

Frameworks & Tools – Agile/Scrum, Jira, Confluence, code review practices.

Emerging AI & Analytics – Generative AI concepts, prompt engineering, LLM applications, BI principles.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Production Support & ML Observability Pipeline (HCL Technologies)

- Engineered **monitoring infrastructure** for mission-critical enterprise applications, integrating **Splunk, Dynatrace, and CloudWatch** to track application health, latency, and error rates across distributed systems.
- Built automated **incident response workflows** using **Python scripting** to correlate logs, identify root causes, and trigger alerts—reducing mean-time-to-resolution (MTTR) for P1/P2 incidents.
- Implemented **data-driven SLA management** by analyzing operational metrics, detecting anomalies, and providing actionable insights to business and engineering teams on system reliability and performance trends.

Data Pipeline & Automation Framework (HCL Technologies)

- Designed and deployed **production ETL pipelines** in **Python** to extract, transform, and load enterprise data from multiple sources into **PostgreSQL and Oracle** data warehouses, automating manual reporting workflows.
- Developed **Java Spring Boot microservices** with **REST APIs** to expose data processing logic, integrated with **AWS Lambda** for serverless job execution and **CloudWatch** for monitoring and alerting.
- Orchestrated pipeline scheduling using **cron jobs** and **Linux shell scripting**, containerized services with **Docker**, and deployed via **Jenkins CI/CD**—enabling reliable daily batch processing and ad-hoc data requests from stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
