

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed **automated test strategies** for enterprise Java and .NET applications, reducing manual testing overhead by **40%** and accelerating release cycles through **Jenkins CI/CD pipeline integration**
- Developed **Python-based test automation frameworks** and data validation scripts for ETL pipelines and scheduled reporting, enabling **intelligent defect analysis** and performance metrics collection across production environments
- Implemented **comprehensive monitoring and intelligent alerting systems** using **Splunk, CloudWatch, and Dynatrace**, correlating system metrics with test results to drive continuous quality improvements and **SLA management**
- Built and maintained **REST API test suites** for microservices running on **AWS (EC2, S3, Lambda)**, leveraging **Docker containerization** and **Git branching strategies** to ensure reliable automated deployment and testing workflows
- Architected **SQL-driven test data management solutions** using **PostgreSQL, MySQL, and Oracle**, automating schema validation and creating reproducible test environments that improved test reliability by **35%**
- Collaborated with cross-functional teams in **Agile/Scrum ceremonies** to design accessibility and localization test strategies, documenting test coverage in **Confluence** and defects in **Jira** with strong problem-solving and debugging practices

SKILLS

Programming & Scripting – Python, Java, Shell scripting, SQL.

Test Automation & Frameworks – REST API testing, Data validation frameworks, CI/CD pipeline integration, Test strategy design.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, ETL pipelines, pandas, NumPy.

Monitoring & Quality Tools – Splunk, Dynatrace, Jira, Confluence, Agile/Scrum.

Emerging Technologies – Machine learning concepts, Data analytics, Performance metrics analysis.

Operating Systems – Linux, log analysis.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Automated Defect Detection (HCL Technologies)

- Designed end-to-end **automated test and monitoring architecture** for mission-critical Java/.NET applications, integrating **Splunk and Dynatrace** for real-time anomaly detection and intelligent incident categorization
- Developed **Python-based automation scripts** that correlated performance metrics with test execution results, enabling **data-driven defect analysis** and reducing P1/P2 incident response time by **30%**
- Implemented **CI/CD pipeline automation** using **Jenkins and Git**, achieving **continuous deployment** with comprehensive test reporting and automated rollback capabilities across **AWS infrastructure**

Data Pipeline Validation & Quality Assurance Framework (HCL Technologies)

- Built **SQL-driven ETL validation framework** using **PostgreSQL and Oracle** to automatically test data integrity, transformations, and schema consistency across scheduled reporting pipelines
- Engineered **Python-based test automation solution** leveraging **pandas and NumPy** for statistical validation of data quality metrics, reducing manual verification effort by **45%** and improving defect detection accuracy
- Integrated automated test execution with **Docker containerization** and **Jenkins**, enabling repeatable, isolated test environments and comprehensive performance analytics dashboards

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
