PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Diagnosed and resolved **P1/P2 production incidents** on enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**, achieving **99%+ SLA compliance** through rapid root-cause analysis and digital diagnostic techniques.
- Developed **Python automation scripts** and **ETL data pipelines** for preventative monitoring and predictive maintenance reporting, reducing manual troubleshooting time by **30%** and enabling data-driven reliability improvements.
- Performed **SQL query optimization** and schema validation across **PostgreSQL, MySQL, and Oracle** databases to support equipment performance analytics and zero-defect quality assurance initiatives.
- Built and maintained **REST APIs** and microservices using **Java Spring Boot**, containerized with **Docker**, and deployed on **AWS (EC2, S3, Lambda)** infrastructure with **Jenkins CI/CD pipelines** for continuous reliability.
- Collaborated across cross-functional teams in Agile/Scrum ceremonies using **Jira and Confluence**, documenting technical procedures and knowledge transfer for structured learning and operational excellence.
- Executed **Linux system administration** tasks including log analysis, shell scripting, and scheduled automation via cron jobs to support 24/7 equipment monitoring and customer operations.

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Databases – PostgreSQL, MySQL, Oracle.

DevOps & Tools – Jenkins, Git, Jira, Confluence, CI/CD pipelines.

Monitoring & Diagnostics – Splunk, Dynatrace, CloudWatch.

Data Engineering – pandas, NumPy, ETL, data pipelines.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Production Support & Monitoring (HCL Technologies)

- Managed real-time monitoring and incident response for mission-critical Java/.NET applications using **Splunk and Dynatrace**, implementing diagnostic dashboards that reduced mean time to resolution (MTTR) by **25%**.

- Designed and executed **Python automation scripts** for predictive maintenance alerts and scheduled reporting, enabling proactive equipment health assessment aligned with zero-defect quality standards.
- Collaborated with customer support teams to troubleshoot hardware and software issues, document root causes, and implement corrective actions through structured continuous improvement programs.

Data Pipeline & API Development for Equipment Analytics (HCL Technologies)

- Developed **ETL pipelines using Python (pandas, NumPy)** to extract machine performance data, transform it for analytics, and load into PostgreSQL for real-time diagnostics and predictive maintenance insights.
- Built scalable **REST APIs** with **Spring Boot** and deployed on **AWS Lambda** to expose equipment telemetry data; containerized with **Docker** and automated deployment via **Jenkins pipelines**.
- Optimized **SQL queries** across multi-database environments to support machine data analytics, enabling AI-driven predictive maintenance approaches and improving operational reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
