+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Executed **production support and incident response** for enterprise Java/.NET applications across multiple environments, managing **P1/P2 escalations** and maintaining **SLA compliance** using **Splunk, CloudWatch, and Dynatrace** — directly applicable to equipment troubleshooting and factory issue escalation
- Performed **preventative and corrective diagnostics** on system components through **log analysis, root cause investigation, and data validation** using **SQL (PostgreSQL, MySQL, Oracle)** — transferable to electrical, mechanical, and system-level equipment assessment
- Assembled and tested **containerized applications using Docker** and validated deployments across **AWS infrastructure (EC2, S3, Lambda)** in alignment with **quality and security standards** — demonstrates hands-on technical assembly and testing discipline required for equipment installation
- Coordinated cross-functional technical communication with stakeholders during **incident resolution and release cycles** via **Jira, Confluence, and Agile ceremonies** — proven ability to document, report status accurately, and collaborate with senior engineers
- Developed **Python automation scripts** for data pipelines and monitoring workflows, reducing manual effort by ~30% — demonstrates problem-solving and continuous improvement mindset for installation cycle optimization
- Operated within rigorous **CI/CD, code review, and Git-based workflows**, adhering to compliance and procedural requirements — experienced in following checklists, procedures, and maintaining accurate technical documentation

SKILLS

Troubleshooting & Diagnostics – root cause analysis, log analysis, system diagnostics, equipment testing.

Technical Systems – Linux, shell scripting, Docker, AWS (EC2, S3, Lambda, CloudWatch).

Software & Scripting – Python, Java, SQL, REST APIs, Git.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Quality & Compliance – procedure documentation, checklists, quality standards, security policy adherence.

Communication & Coordination – technical escalation, cross-functional collaboration, Jira, status reporting.

Data Engineering – ETL pipelines, data validation, automation, reporting.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring (HCL Technologies)

- Led **production support operations** for high-availability enterprise services, responding to **P1/P2 incidents** and performing **root cause analysis** using **Splunk, Dynatrace, and CloudWatch**
- Implemented **diagnostic procedures and troubleshooting workflows** to isolate system failures across electrical, network, and application layers — reducing mean time to resolution (MTTR) by **~20%**
- Coordinated **escalation communication** with senior engineers and stakeholders via conference calls and documentation, ensuring accurate status reporting and non-conformance tracking

Infrastructure Automation & Deployment Pipeline (HCL Technologies)

- Developed **Python ETL scripts** for automated data validation and monitoring workflows, reducing manual testing effort and improving deployment consistency
- Executed **Docker containerization** and **AWS infrastructure deployment (EC2, S3, Lambda)** with strict adherence to **security policies, quality standards, and CI/CD procedures**
- Participated in **continuous improvement initiatives** to optimize build and deployment cycles, demonstrating problem-solving and process optimization discipline

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
