PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Conducted **data research and analysis** using **Python, pandas**, and **SQL** to extract, validate, and synthesise information from multiple sources for reporting and decision-making; demonstrated strong **written communication** through technical documentation and structured reporting.
- Performed **production monitoring and reliability engineering** on enterprise applications using **Splunk, CloudWatch, and Dynatrace**, identifying patterns, anomalies, and supporting root-cause analysis to improve system resilience and uptime.
- Executed **ETL pipelines and data workflows** using **Python scripting** and **SQL** (PostgreSQL, MySQL, Oracle) to process, validate, and prepare datasets for analysis; collaborated across technical and non-technical teams to align data requirements with business objectives.
- Developed and maintained **REST APIs** and backend services using **Java Spring Boot**, applying software engineering best practices including **Git branching, CI/CD pipelines (Jenkins), and code reviews** within Agile/Scrum frameworks.
- Managed infrastructure and containerised workloads on **AWS (EC2, S3, Lambda, CloudWatch)** and **Docker**; performed system administration tasks including log analysis, shell scripting, and scheduled automation on **Linux** environments.
- Completed **MSc in Data Analytics** alongside professional responsibilities, developing advanced research, analytical, and communication skills applicable to complex assessments and cross-disciplinary project work.

SKILLS

Research & Analysis – desk-based research, data synthesis, pattern identification, PostgreSQL, MySQL, Oracle, pandas, NumPy.

Written Communication – technical documentation, structured reporting, data interpretation, findings presentation.

Data Engineering & Scripting – Python, ETL pipelines, shell scripting, SQL queries, Linux.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins.

Software Development – Java Spring Boot, REST APIs, Agile/Scrum, code review, CI/CD.

Tools & Systems – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Flask, FastAPI.

Qualifications – MSc Data Analytics, Bachelor of Engineering (Computer Science), IELTS Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Designed and implemented **production monitoring dashboards** using **Splunk and Dynatrace** to track application health, performance metrics, and SLA compliance across enterprise Java/.NET systems.
- Performed **incident analysis and root-cause investigation** for P1/P2 production issues, documenting findings and remediation steps to improve system reliability and prevent recurrence.
- Collaborated with cross-functional teams (development, operations, infrastructure) to translate monitoring insights into actionable recommendations for system optimisation.

Data Pipeline & Reporting Automation (HCL Technologies)

- Engineered **ETL pipelines and scheduled reporting workflows** using **Python, SQL (PostgreSQL, MySQL, Oracle), and shell scripting** to automate data collection, validation, and delivery to stakeholders.
- Performed **data quality assurance** through ad-hoc **SQL queries** and schema analysis, ensuring data accuracy and integrity across production databases.
- Deployed automated scripts on **Linux** systems using **cron jobs** and **Lambda functions**, reducing manual reporting effort and enabling timely insights for decision-makers.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
