PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported **compliance and risk management** across enterprise Java/.NET applications, managing **P1/P2 incident response** and **SLA compliance** using **Splunk, CloudWatch, and Dynatrace** monitoring tools; identified and documented operational risks impacting **25+ services** in production environments.
- Designed and implemented **data pipelines and ETL workflows** using **Python** for automated compliance reporting, data validation, and regulatory audit trails; reduced manual reporting time by **40%** through scheduled automation.
- Conducted **risk and compliance assessments** across **AWS infrastructure (EC2, S3, Lambda)** and **containerized environments (Docker)**, documenting security configurations and operational resilience measures aligned with infrastructure governance standards.
- Prepared technical documentation, maintained audit registers, and supported **governance programmes** through **Jira and Confluence**; collaborated with cross-functional teams to implement code review processes and enforce **Git branching** standards for operational control.
- Performed **SQL-based data analysis** across **PostgreSQL, MySQL, and Oracle** databases to validate data integrity, support compliance checks, and investigate operational incidents; executed **schema changes** with zero downtime.
- Demonstrated strong analytical and problem-solving capabilities through **Linux** system administration, shell scripting, and log analysis; communicated technical findings to stakeholders in Agile/Scrum ceremonies and maintained detailed incident documentation.

SKILLS

Risk & Compliance – compliance assessment, risk identification and mitigation, incident management, audit documentation, data governance.

Monitoring & Operations – Splunk, CloudWatch, Dynatrace, production support, SLA management, business continuity.

Data & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, data validation, ETL pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, infrastructure security.

Development & Tools – Java Spring Boot, REST APIs, Git, Jenkins CI/CD, Jira, Confluence, Agile/Scrum.

Certifications & Education – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Risk Assessment (HCL Technologies)

- Led production support and monitoring for **enterprise Java/.NET applications** serving **20+ internal clients**; implemented **Splunk dashboards** and **CloudWatch alarms** to detect operational risks and compliance anomalies in real-time.
- Conducted comprehensive **risk assessments** on application architecture, identifying vulnerabilities in **API security, data handling, and business continuity**; documented findings in audit-ready reports for stakeholder review.
- Developed **Python automation scripts** to extract and validate audit logs, generating **ISO-aligned compliance reports** monthly; reduced manual audit preparation overhead by **35%** through systematic data extraction.

Cloud Infrastructure Governance & Data Pipeline Implementation (HCL Technologies)

- Architected and deployed **ETL pipelines using Python** to aggregate operational metrics from **AWS services (Lambda, CloudWatch, S3)**; ensured data lineage and integrity for regulatory reporting and risk trend analysis.
- Managed **Docker containerization** and **AWS infrastructure governance**, conducting security and operational resilience reviews; documented compliance with cloud best practices and disaster recovery requirements.
- Collaborated with compliance and infrastructure teams to implement **Git and Jenkins CI/CD controls**, enforcing code review processes and change tracking to maintain operational audit trails and regulatory compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
