PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Executed **production support and reliability engineering** for enterprise Java/.NET applications across **AWS infrastructure** (EC2, S3, Lambda, CloudWatch), managing **SLA adherence** and P1/P2 incident response with **Splunk, CloudWatch, and Dynatrace** monitoring tools; directly improved system uptime and customer satisfaction.
- Demonstrated strong **troubleshooting and problem-solving** discipline through detailed **log analysis, Linux shell scripting, and cron job automation**; diagnosed and resolved complex production issues in time-sensitive environments, prioritizing safety and precision.
- Built **Python automation scripts and data pipelines** for ETL workflows and scheduled reporting; leveraged **pandas, NumPy** for data validation and quality assurance, supporting cross-functional teams with reliable, well-documented solutions.
- Developed and maintained **REST APIs and microservices** using **Java Spring Boot** with **PostgreSQL, MySQL, and Oracle** databases; conducted **code reviews and Git branching** via **Jenkins CI/CD pipelines**, ensuring code quality and deployment reliability.
- Collaborated effectively within **cross-functional, multicultural Agile/Scrum teams** across distributed locations; communicated technical findings clearly to stakeholders via **Jira, Confluence**, and provided proactive updates to ensure customer alignment and trust.
- Containerized applications using **Docker** and managed infrastructure-as-code practices; gained hands-on experience with cloud deployment, system optimization, and adherence to operational standards in regulated production environments.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD (Jenkins, Git).

Troubleshooting & Diagnostics – Production support, system monitoring (Splunk, Dynatrace), log analysis, problem-solving, safety-first mindset.

Backend Development – Java, Spring Boot, REST APIs, Python (Flask, FastAPI), microservices architecture.

Data & Databases – SQL (PostgreSQL, MySQL, Oracle), data pipelines, ETL, pandas, NumPy.

Engineering & Technical Communication – Cross-functional collaboration, Agile/Scrum, technical documentation (Confluence, Jira), customer support.

Education & Certifications – MSc Data Analytics (National College of Ireland), Bachelor of Engineering Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring (HCL Technologies)

- Owned **production support operations** for mission-critical Java/.NET enterprise applications deployed on **AWS infrastructure**, achieving consistent **SLA compliance** through proactive **CloudWatch and Dynatrace monitoring**.
- Designed and deployed **Splunk dashboards** for real-time system health visibility, enabling rapid P1/P2 incident diagnosis and resolution; reduced mean-time-to-recovery through disciplined root cause analysis and cross-team coordination.
- Automated routine operational tasks using **Linux shell scripting and cron jobs**, reducing manual effort and improving reliability; documented all procedures for knowledge transfer and continuity.

Data Engineering & Automation Pipeline (HCL Technologies)

- Developed **Python-based ETL pipelines** and scheduled reporting automation leveraging **pandas and NumPy** for data validation, transforming unstructured logs into actionable business intelligence.
- Engineered **REST APIs** using **Java Spring Boot** connected to **PostgreSQL and Oracle databases**; implemented robust schema changes and ad-hoc queries supporting analytics and operational reporting.
- Integrated automation workflows into **Jenkins CI/CD pipelines** with **Git version control**, ensuring code quality through peer reviews and enabling reliable, repeatable deployments across environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
