+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported production monitoring and reliability engineering of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, managing SLA compliance and responding to P1/P2 incidents — experience translatable to environmental data systems and stakeholder reporting.
- Designed and executed **Python-based data pipelines and ETL workflows** for automated data collection, validation, and reporting — directly applicable to environmental baseline data analysis and constraints appraisals.
- Conducted **SQL-based data analysis** across **PostgreSQL, MySQL, and Oracle** databases for ad-hoc queries and schema validation — skillset applicable to environmental datasets and desk-based appraisals.
- Coordinated cross-functional teams through **Jira, Confluence, and Agile ceremonies**, managing defect tracking and sprint delivery — experience supporting multi-disciplinary coordination of environmental assessments.
- Developed and maintained **REST APIs and Java Spring Boot microservices**, contributing to robust, scalable system design aligned with best practice standards and agreed delivery programmes.
- Deployed applications on **AWS infrastructure (EC2, S3, Lambda)** and containerized services using **Docker** — technical foundation supporting modern environmental consulting platforms and data management systems.

SKILLS

Data Analysis & Environmental Assessment – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, data pipeline design, desk-based appraisals.

Environmental & Sustainability – Environmental Impact Assessment coordination, baseline constraints analysis, sustainability-focused design review.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD pipelines.

Software Development – Java Spring Boot, REST APIs, Git, Jenkins.

Monitoring & Reporting – Splunk, Dynatrace, factual report writing, stakeholder communication.

Collaboration & Project Management – Jira, Confluence, Agile/Scrum, multi-disciplinary team coordination.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Established **Splunk and Dynatrace monitoring dashboards** for production Java/.NET applications, reducing mean time to resolution (MTTR) by tracking system health metrics and SLA compliance across multiple

environments.

- Responded to and resolved **P1/P2 production incidents** through root cause analysis, log investigation on **Linux systems**, and coordination with development and infrastructure teams — demonstrating stakeholder communication and problem-solving under pressure.
- Authored factual incident reports and performance trend analyses, communicating technical findings to multi-disciplinary colleagues and senior stakeholders to inform operational improvements.

Data Pipeline & ETL Automation (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** for automated data collection, transformation, and validation across enterprise databases (**PostgreSQL, MySQL, Oracle**), improving data accuracy and reducing manual effort by **40%**.
- Conducted **SQL ad-hoc analysis and schema validation** to ensure data integrity and support business intelligence reporting requirements, translatable to environmental baseline data collection and constraints analysis.
- Scheduled automated reporting jobs using **cron and shell scripting** on **Linux** systems, ensuring timely delivery of factual reports and findings to stakeholders across multiple teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
