PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **root cause analysis** and **failure investigation** activities on production enterprise Java/.NET applications, diagnosing and resolving critical P1/P2 incidents using **Splunk**, **CloudWatch**, and **Dynatrace** monitoring tools; documented findings and drove corrective actions for regulatory compliance
- Performed **data analysis and trend identification** on application logs and performance metrics using **Python** (**pandas**, **NumPy**) and **SQL** queries across **PostgreSQL**, **MySQL**, and **Oracle** databases; authored technical reports and summaries for stakeholder communication
- Authored and reviewed **technical documentation** including testing protocols, troubleshooting guides, and incident reports; maintained quality standards through rigorous **document control** and **Git** version management across **CI/CD pipelines**
- Collaborated with cross-functional teams including infrastructure, development, and product teams to investigate system failures and implement preventive measures; mentored junior engineers on incident response and debugging methodologies
- Conducted **ad hoc investigations** into application and infrastructure failures through hands-on **Linux** log analysis, **shell scripting**, and system troubleshooting; identified product issues proactively and escalated to relevant engineering teams
- Supported quality assurance activities through **Jira**-based defect tracking, **Agile** ceremony participation, and process improvement recommendations; demonstrated strong problem-solving and analytical capabilities in complex, regulated production environments

SKILLS

Data & Statistical Analysis – Python, pandas, NumPy, SQL, trend analysis, root cause analysis.

Quality & Compliance – Quality systems, document control, regulatory compliance, incident response, corrective/preventive actions.

Laboratory & Diagnostic Tools – Splunk, Dynatrace, CloudWatch, log analysis, failure investigation.

Database & Query Languages – PostgreSQL, MySQL, Oracle, SQL, data validation.

Engineering & Development – Java Spring Boot, REST APIs, Linux, shell scripting, Docker.

Collaboration & Communication – Technical writing, Jira, Confluence, Git, Agile/Scrum, cross-functional teamwork.

Certifications & Education – MSc Data Analytics, Full Stack Java Spring Boot & Angular, Python Programming (Coursera), IELTS Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Owned production support and **reliability engineering** responsibilities for mission-critical Java and .NET applications serving enterprise clients; responded to **P1/P2 incidents** with **SLA adherence** using **Splunk**, **CloudWatch**, and **Dynatrace**
- Investigated application failures through log analysis, system diagnostics, and **root cause analysis**; authored detailed incident reports and technical documentation for regulatory audits and compliance reviews
- Collaborated with Sustaining Engineering and Product Development teams to implement corrective actions and preventive measures; mentored junior team members on investigation protocols and troubleshooting best practices

Data Pipeline & Trend Analysis Automation (HCL Technologies)

- Designed and implemented **Python-based ETL pipelines** and **data validation scripts** to process application logs and performance metrics from **AWS CloudWatch**, **PostgreSQL**, and **MySQL** sources
- Performed **ad hoc data analysis** using **pandas** and **SQL** to identify performance trends, anomalies, and complaint patterns; created automated reports and dashboards for stakeholder review
- Deployed scheduled **Jenkins pipeline** jobs to execute reporting tasks on **AWS Lambda**; version controlled all scripts and configurations in **Git** with peer code reviews for quality assurance

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
