PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed **data analysis pipelines** using **Python**, **pandas**, and **NumPy** to process experimental and operational datasets; validated data quality and generated insights for cross-functional teams, demonstrating strong analytical and troubleshooting capabilities.
- Developed **automated testing and monitoring strategies** for enterprise applications using **Splunk**, **CloudWatch**, and **Dynatrace**; identified and resolved **P1/P2 production issues** with **SLA compliance**, translating technical findings into actionable reports for stakeholders.
- Built robust **REST APIs** and microservices in **Java Spring Boot**; collaborated across departments to align technical solutions with product requirements and system-level goals, ensuring reliability and regulatory readiness.
- Conducted **ETL and data engineering workflows** with **SQL** (PostgreSQL, MySQL, Oracle) and **Python scripting**; developed scheduled reporting and validation protocols that maintained data integrity and supported decision-making.
- Established **CI/CD automation** through **Jenkins pipelines** and **Git workflows**, reducing deployment friction and improving code quality through rigorous peer reviews and Agile ceremony participation.
- Applied scientific judgment to troubleshoot complex technical issues in containerised environments (**Docker**, **AWS EC2/S3/Lambda**); documented findings and maintained clear technical records compliant with quality standards.

SKILLS

Data Analysis & Programming – Python, pandas, NumPy, SQL, PostgreSQL, MySQL, Oracle.

Software Development – Java Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Monitoring & Diagnostics – Splunk, Dynatrace, log analysis, incident response.

Laboratory & Quality Support – data validation, protocol documentation, troubleshooting, compliance.

Collaboration & Technical Communication – Jira, Confluence, cross-functional team engagement, Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Data Pipeline Automation (HCL Technologies)

- Led production support for mission-critical enterprise **Java/.NET applications**, managing **SLA compliance** and responding to **P1/P2 incidents** using **Splunk** and **CloudWatch** monitoring.

- Designed and implemented **Python-based automation scripts** for recurring data validation, ETL workflows, and scheduled reporting; reduced manual effort by enabling hands-off execution and improving data quality assurance.
- Collaborated with cross-functional teams to troubleshoot complex issues, document findings in technical reports, and align solutions with product and regulatory requirements.

Microservices Development & System Integration (HCL Technologies)

- Developed new features and bug fixes for **Java Spring Boot** microservices; built **REST APIs** that integrated across multiple systems and supported high-volume transactional environments.
- Implemented **Docker containerisation** and established **CI/CD pipelines** using **Jenkins** and **Git**, ensuring repeatable deployments and code quality through peer reviews.
- Applied critical thinking to system design decisions; engaged with technical teams and stakeholders to ensure solutions met program commitments and aligned with customer workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
