PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Engineered **Python**-based **data pipelines** and **ETL workflows** for enterprise systems, processing and validating large datasets across **PostgreSQL, MySQL, and Oracle** to support analytics and reporting at scale.
- Built and maintained **REST APIs** using **Java Spring Boot**, delivering reliable microservices in production environments with **Docker** containerization and **AWS (EC2, S3, Lambda)** infrastructure.
- Implemented **end-to-end monitoring and observability** solutions using **Splunk, CloudWatch, and Dynatrace** to detect anomalies, manage SLAs, and respond to P1/P2 incidents—demonstrating ownership and attention to detail that matter in production systems.
- Automated operational tasks and infrastructure workflows with **shell scripting, Python automation, and cron jobs** on **Linux** systems, reducing manual effort and improving system reliability.
- Collaborated in small, autonomous **Agile/Scrum** teams using **Git, Jenkins CI/CD pipelines, and Jira**, practicing code reviews and transparent communication to ship quality software reliably.
- Completed **MSc in Data Analytics** alongside full-time work, gaining deep expertise in statistical reasoning, data modeling, and AI fundamentals—combining technical depth with the drive to solve complex problems from first principles.

SKILLS

Programming Languages – Python, Java, SQL, shell scripting.

Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.

Data Engineering – ETL pipelines, data validation, pandas, NumPy.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle.

Observability & Reliability – Splunk, Dynatrace, production monitoring, SLA management.

Methodologies & Tools – Agile/Scrum, Linux, Jira, code review practices.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability (HCL Technologies)

- Designed and deployed **Splunk and Dynatrace** dashboards to monitor critical **Java/.NET applications**, reducing mean-time-to-incident-detection by enabling proactive SLA management.
- Owned P1/P2 incident response workflows, conducting root-cause analysis and driving fixes to production systems, demonstrating high standards for reliability and system ownership.

- Automated alerting pipelines and log aggregation using **Python** and **CloudWatch**, improving visibility and reducing manual triage effort across enterprise infrastructure.

Data Pipeline & API Development (HCL Technologies)

- Built scalable **Python ETL workflows** to extract, transform, and load data from multiple sources into **PostgreSQL and Oracle** databases, enabling downstream analytics and reporting.
- Developed **Spring Boot REST APIs** with **Docker** containerization deployed on **AWS EC2**, ensuring robust and reproducible code ready for production scale.
- Implemented **Jenkins CI/CD pipelines** and **Git** branching strategies to automate testing and deployment, maintaining high code quality through peer review and continuous integration practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
