PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **P1/P2 incident response** and **SLA compliance** for enterprise Java/.NET applications across **3.5 years**, using **Splunk, CloudWatch, and Dynatrace** to monitor system health and drive rapid issue resolution—developing strong accountability and customer-centric problem-solving skills essential for account management.
- Built and maintained **data pipelines and ETL workflows** using **Python** and **SQL** (PostgreSQL, MySQL, Oracle), delivering **automated reporting** that reduced manual effort and improved decision-making velocity across stakeholder teams.
- Developed **REST APIs** and backend services using **Java Spring Boot**, translating complex product requirements into scalable solutions while collaborating closely with cross-functional teams—experience that sharpens understanding of product value and customer needs.
- Led **CI/CD pipeline optimization** through **Jenkins** automation and **Git** workflows, improving deployment reliability and team velocity—demonstrating ownership, process discipline, and drive to strengthen operational effectiveness.
- Leveraged **AWS cloud infrastructure** (EC2, S3, Lambda, CloudWatch) and **Docker containerization** to support scalable application deployments, gaining hands-on understanding of modern infrastructure that underpins product performance and customer experience.
- Conducted ad-hoc **data analysis** and **performance metrics reviews** using **pandas** and **NumPy**, identifying operational bottlenecks and recommending improvements—a foundation for data-driven decision-making and strategic sales prioritization.

SKILLS

Business & Problem-Solving – incident management, SLA compliance, first-principles reasoning, data-driven analysis.

Sales & Client Enablement – requirements gathering, technical communication, product feedback, stakeholder collaboration.

Backend Development – Java Spring Boot, REST APIs, Python, Flask, FastAPI.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Python, pandas, NumPy, ETL workflows.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

Business Tools – Jira, Confluence, Agile/Scrum, Excel-based reporting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Owned production support and real-time monitoring for mission-critical Java/.NET applications serving enterprise clients, managing SLA targets and coordinating rapid incident resolution using **Splunk and Dynatrace**.
- Established monitoring dashboards and alerting rules that reduced mean-time-to-detection (MTTD) and enabled teams to proactively identify customer impact before escalation.
- Developed deep understanding of application architecture, customer workflows, and business priorities—skills directly transferable to understanding customer incentives and product value in a sales context.

Data Pipeline Automation & Reporting (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** and scheduled reporting workflows using **SQL and shell scripting**, automating data validation and delivery to stakeholders.
- Optimized data extraction queries across **PostgreSQL, MySQL, and Oracle** databases, improving report generation time and enabling faster business decision-making.
- Collaborated with business stakeholders to translate requirements into data workflows—demonstrating ability to bridge technical and non-technical perspectives, a core competency for B2B sales and account management.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
