PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Engineered **Python** data pipelines and **ETL** workflows for enterprise applications, processing millions of records daily and reducing manual reporting overhead by **40%** through automation and scheduled jobs.
- Delivered **Java Spring Boot** microservices and **REST APIs** in production, owning features from design to deployment while maintaining **99.5% uptime** through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**.
- Optimized database performance across **PostgreSQL, MySQL, and Oracle** by writing and validating complex **SQL** queries, improving query execution time by **35%** and ensuring data integrity during schema migrations.
- Built and maintained **CI/CD pipelines** using **Jenkins** and **Git**, enabling rapid iteration and code quality through automated testing and peer reviews across distributed teams.
- Deployed and scaled applications on **AWS** (EC2, S3, Lambda, CloudWatch), containerized services with **Docker**, and debugged production issues in **Linux** environments using log analysis and shell scripting.
- Demonstrated strong reasoning and ownership by responding to **P1/P2 incidents** with **SLA accountability**, collaborating cross-functionally to resolve critical issues and implement preventative measures in Agile ceremonies.

SKILLS

Languages & Runtimes – Python, Java, SQL, Bash/Shell scripting.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Data Engineering & Analytics – ETL pipelines, pandas, NumPy, data validation, SQL-based analytics.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD (Jenkins, Git).

Databases – PostgreSQL, MySQL, Oracle, schema design and optimization.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Collaboration & Tools – Jira, Confluence, Agile/Scrum, code reviews.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Reporting Automation (HCL Technologies)

- Architected and deployed **Python-based ETL pipeline** that ingested data from multiple enterprise sources, transformed unstructured logs into actionable insights, and automated scheduled reporting for stakeholders.
- Optimized **SQL queries** across **PostgreSQL and Oracle** databases to reduce report generation time from **45 minutes to 8 minutes**, improving decision-making velocity for business teams.

- Integrated data validation and quality checks using **pandas and NumPy**, ensuring **99.8% data accuracy** and reducing downstream issues by identifying anomalies before production handoff.

Microservices Reliability & Production Support (HCL Technologies)

- Owned reliability engineering for **Java Spring Boot** microservices processing millions of daily transactions, leveraging **Splunk, Dynatrace, and CloudWatch** to monitor system health and detect performance degradation in real time.
- Delivered **REST API enhancements** and bug fixes across multiple services, supporting end-to-end ownership from requirement understanding through **CI/CD deployment** using **Jenkins and Git**.
- Maintained **99.5% uptime SLA** by responding to **P1/P2 incidents** with systematic root cause analysis, implementing preventative measures, and simplifying operational complexity through automation and monitoring improvements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
