

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Python-based data pipelines** and **ETL workflows** for enterprise applications, transforming unstructured operational data into structured formats for analysis and reporting—directly applicable to making documentation AI-ready.
- Built **REST APIs** using **Java Spring Boot** and developed **automation scripts** that reduced manual documentation and support tasks by approximately **30%**, demonstrating hands-on ability to integrate AI-assisted tooling into existing workflows.
- Managed production reliability using **Splunk**, **CloudWatch**, and **Dynatrace** to monitor application health and detect anomalies—experience directly transferable to building content quality checks and validation pipelines for documentation systems.
- Implemented **CI/CD pipelines** with **Jenkins** and **Git** within Agile environments, managing code reviews and infrastructure-as-code practices—foundational skills for integrating AI capabilities into content pipelines without disrupting writers.
- Performed complex **SQL** data modeling and schema design across **PostgreSQL**, **MySQL**, and **Oracle**, including ad-hoc queries and data validation—experience with structured, schema-driven data directly relevant to working with DITA XML and metadata enrichment.
- Deployed and maintained containerized applications using **Docker** and **AWS** services (**EC2**, **S3**, **Lambda**), building familiarity with microservices architectures and cloud-based content pipeline infrastructure.

SKILLS

AI & Machine Learning – LLM integration, RAG pipeline fundamentals, data enrichment for AI systems, structured content preparation.

Programming Languages – Python, Java, SQL, TypeScript basics.

Data & Content Engineering – ETL pipelines, data transformation, schema design, PostgreSQL, MySQL, Oracle, pandas, NumPy.

Backend & API Development – Spring Boot, REST APIs, Flask, FastAPI.

DevOps & Infrastructure – CI/CD (Jenkins), Git, Docker, AWS (EC2, S3, Lambda, CloudWatch), Linux.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Collaboration & Tools – Jira, Confluence, Agile/Scrum, technical documentation, Git-based workflows.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Automation (HCL Technologies)

- Architected and deployed **Python-based ETL pipelines** that ingested operational logs from **CloudWatch** and **Splunk**, transformed raw telemetry into structured datasets, and loaded into **PostgreSQL** for analytics.
- Integrated pipeline outputs with **REST APIs** to enable real-time data consumption by monitoring dashboards, reducing manual reporting overhead by **40%**.
- Implemented automated **data validation** and quality checks using **pandas** to flag schema violations and anomalies—directly applicable to building content validation and enrichment services for DITA-based documentation.

Microservices Reliability & Content-Ready Infrastructure (HCL Technologies)

- Developed **Spring Boot microservices** deployed on **Docker** and **AWS**, establishing standardized **CI/CD pipelines** with **Jenkins** and **Git** to automate deployments across staging and production environments.
- Built **monitoring and alerting workflows** using **Dynatrace** and **CloudWatch** to track service health and automatically trigger incident response—experience applicable to detecting and remediating content quality issues at scale.
- Collaborated with platform engineers to define infrastructure-as-code standards and **API contracts**, ensuring services could reliably consume and transform data—foundational skills for designing APIs that power AI-driven documentation experiences.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
