PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Bridged technical and business teams across **3.5 years** in enterprise software support, translating operational metrics (**SLA management**, P1/P2 incidents) into actionable insights for stakeholders using **Splunk, CloudWatch, and Dynatrace**.
- Gathered and documented requirements through log analysis and system monitoring, creating clear technical specifications for **Java Spring Boot** feature development and **REST API** enhancements on production services.
- Conducted gap analysis on data workflows by designing and implementing **Python** scripts for **ETL pipelines** and automated reporting, identifying optimization opportunities that improved data pipeline efficiency.
- Facilitated Agile ceremonies and maintained project backlogs in **Jira**, supporting requirement elicitation and user story creation within Scrum frameworks across cross-functional teams.
- Demonstrated analytical capability by interpreting complex **SQL** datasets across **PostgreSQL, MySQL, and Oracle**, performing ad-hoc analysis and presenting data-driven findings to non-technical stakeholders.
- Supported CI/CD and deployment workflows using **Jenkins, Git, and Docker**, gaining exposure to infrastructure and process optimization that underpins software development lifecycles.

SKILLS

Business Analysis & Requirements – requirement elicitation, user story creation, functional specifications, gap analysis, process mapping.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Python, pandas, NumPy, ETL, ad-hoc data analysis, data validation.

Software Development – Java Spring Boot, REST APIs, Git, CI/CD pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Agile & Collaboration – Jira, Confluence, Scrum, Agile frameworks, stakeholder communication.

AI & Machine Learning Exposure – data pipeline architecture, Python-based automation, understanding of data requirements for analytics workflows.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Production Monitoring & Support (HCL Technologies)

- Served as primary technical liaison between operations and development teams, using **Splunk and Dynatrace** to monitor **Java/.NET applications**, translating performance metrics into business-focused insights and incident reports.
- Documented root causes and operational requirements for **P1/P2 incidents**, creating detailed specifications that informed feature development and process improvements aligned with business SLAs.
- Developed **Python**-based automation scripts for scheduled reporting and data validation, reducing manual analysis time and ensuring stakeholders received timely, data-driven operational insights.

Data Pipeline Optimization & ETL Automation (HCL Technologies)

- Designed and implemented **Python ETL pipelines** using **pandas and NumPy** to extract, transform, and load data from multiple sources, improving data quality and pipeline reliability.
- Collaborated with business stakeholders to identify data requirements and success metrics for automated workflows, translating business objectives into technical specifications and **SQL schema changes** across **PostgreSQL and Oracle** databases.
- Maintained comprehensive documentation of data flows and transformation logic in **Confluence**, supporting knowledge transfer and enabling non-technical stakeholders to understand data-driven process improvements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
