PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **production support and monitoring** of enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**; managed **P1/P2 incident response** and SLA compliance, ensuring **99.5%+ uptime** across mission-critical systems.
- Designed and executed **data validation protocols** and **quality audits** using **SQL (PostgreSQL, MySQL, Oracle)** and **Python automation scripts**; identified and resolved **25+ data integrity issues** impacting batch release decisions.
- Administered **CI/CD pipelines (Jenkins)** and **Git workflows** with code review governance; established **documentation standards** and **change control procedures** for deployment approvals, reducing release cycle time by **30%**.
- Developed **ETL workflows and automated reporting** using **Python (pandas, NumPy)** for **deviation tracking, CAPA metrics, and quality trend analysis**; delivered monthly **Product Quality Review dashboards** to stakeholders.
- Coordinated **AWS infrastructure (EC2, S3, Lambda, CloudWatch)** and **Docker containerisation** for application deployments; supported **compliance audits** by documenting **data integrity controls** and **access logs**.
- Partnered with cross-functional teams on **complaint investigations, root cause analysis, and CAPA tracking** using **Jira ticketing and Confluence documentation**; mentored **5+ junior engineers** on cGMP documentation and regulatory expectations.

SKILLS

Quality & Compliance – cGMP principles, deviation and CAPA management, change control, data integrity, complaint investigations, product quality review, compliance documentation.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Python, pandas, NumPy, ad-hoc data analysis, validation protocols, trend analysis, statistical review.

Monitoring & Systems – Splunk, Dynatrace, CloudWatch, production support, incident response, SLA management, application reliability.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, CI/CD pipelines, Jenkins, Git.

Documentation & QMS – Jira, Confluence, procedure documentation, audit readiness, archiving, logbook administration, quality manual maintenance.

Technical Stack – Java Spring Boot, REST APIs, Flask, FastAPI, React, Angular.

Soft Skills – cross-functional collaboration, stakeholder communication, training and coaching, audit support, Agile/Scrum ceremonies.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise Application Reliability & Quality Oversight (HCL Technologies)

- Monitored **20+ Java and .NET applications** across production environments using **Splunk and Dynatrace**; implemented **automated alerting** for **P1/P2 incidents**, reducing mean time to resolution (MTTR) by **35%**.
- Executed **data quality audits** on critical batch records using **SQL queries** and **Python validation scripts**; documented findings in **deviation reports** and supported root cause investigations and CAPA closure.
- Developed **automated compliance reporting** using **Python (pandas, NumPy)** to consolidate **SLA metrics, incident logs, and quality KPIs**; presented monthly reviews to QA and operations leadership.

Data Pipeline & Change Control Automation (HCL Technologies)

- Built **ETL pipelines** in **Python** to extract, validate, and load quality data from **AWS S3** into data warehouses; ensured **data integrity** through reconciliation and sampling protocols.
- Administered **Jenkins CI/CD pipelines** and enforced **git-based change control procedures**; maintained **Confluence documentation** of deployment approvals, reducing manual review overhead by **40%**.
- Coordinated **infrastructure updates (Docker, EC2, Lambda)** with compliance oversight; documented **change impact assessments** and maintained audit trails for regulatory inspections.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
