PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Python**-based **data pipelines** and **ETL workflows** for enterprise applications, processing complex datasets to support reporting and analytics initiatives across global teams
- Analysed large-scale production data using **SQL** (PostgreSQL, MySQL, Oracle) and **pandas/NumPy** to identify trends, performance bottlenecks, and actionable insights; generated ad-hoc queries reducing incident resolution time by **30%**
- Built and deployed **REST APIs** and microservices using **Java Spring Boot**, integrating with **AWS** services (EC2, S3, Lambda, CloudWatch) and **Docker** containers to support scalable data processing workflows
- Implemented automated monitoring and alerting solutions using **Splunk** and **Dynatrace**, enabling proactive detection of data quality issues and operational anomalies in production environments
- Collaborated with cross-functional teams to translate business requirements into technical solutions; presented data-driven recommendations to stakeholders through dashboards and Confluence documentation
- Contributed to **CI/CD pipelines** using **Jenkins** and **Git**, ensuring code quality and reliable deployment of data and analytics features in Agile/Scrum environments

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting, Linux.

Data Engineering & Analytics – ETL pipelines, data pipelines, pandas, NumPy, SQL query optimization, PostgreSQL, MySQL, Oracle.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerisation.

Frameworks & Tools – Spring Boot, REST APIs, Flask, FastAPI, Jenkins, Git, Jira.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, production support, SLA management.

Data Visualisation & Communication – Confluence, report generation, data storytelling, stakeholder presentation.

Professional Development – Full Stack Java Spring Boot & Angular certification, Web Development (Coursera), Python Programming (Coursera), IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Data Pipeline & Monitoring Architecture (HCL Technologies)

- Architected and deployed automated **ETL pipelines** using **Python** and **PostgreSQL** to ingest, transform, and validate production application data for enterprise analytics

- Integrated **Splunk** and **Dynatrace** monitoring to track data pipeline health, model performance, and system reliability; reduced mean time to detection (MTTD) for data quality issues by **40%**
- Deployed pipeline orchestration on **AWS Lambda** and **EC2**, enabling scalable, scheduled reporting and supporting stakeholder decision-making across multiple business domains

Microservices Development & API Integration (HCL Technologies)

- Developed **REST APIs** and backend microservices using **Spring Boot** to expose data processing capabilities; integrated with **AWS** services (S3, CloudWatch) and containerised using **Docker**
- Implemented robust error handling and logging mechanisms; collaborated with cross-functional teams to validate business requirements and ensure reliable API performance in production
- Maintained code quality through **Git** version control and **Jenkins CI/CD pipelines**, achieving consistent deployment cycles and supporting rapid iteration on new analytics features

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
