PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **high-touch technical support** for enterprise Java/.NET applications across **25+ production systems**, resolving P1/P2 incidents with **99.2% SLA compliance** through proactive monitoring with **Splunk, Dynatrace, and CloudWatch**
- Developed **Python-based data pipelines and ETL workflows** for analytics and reporting, translating business requirements into reliable, self-service solutions that reduced manual reporting overhead by **40%**
- Bridged technical and non-technical stakeholders as a subject matter expert, communicating complex system architecture, incident root causes, and data insights to users ranging from junior analysts to C-level partners
- Engineered **REST APIs and Spring Boot microservices** with focus on reliability and user experience; validated data integrity across **PostgreSQL, MySQL, and Oracle** databases through rigorous schema analysis and ad-hoc querying
- Championed operational excellence by building **automated monitoring dashboards, runbooks, and documentation in Confluence and Jira**, enabling distributed teams to operate independently and respond to escalations with confidence
- Demonstrated self-direction in a fast-paced Agile environment, proactively identified process gaps in incident response workflows, and drove improvements that streamlined **Jenkins CI/CD pipelines** and code review practices across teams

SKILLS

Data & Analytics – Python, pandas, NumPy, ETL pipelines, data validation, SQL querying, statistical analysis.

Backend & API Development – Java, Spring Boot, REST APIs, microservices, application architecture.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, Jenkins, Git.

Monitoring & Observability – Splunk, Dynatrace, application performance monitoring, incident response, SLA management.

Communication & Documentation – Confluence, Jira, technical writing, stakeholder engagement, knowledge base development.

Frameworks & Tools – Flask, FastAPI, React, Angular, web development.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Production Monitoring & Incident Response Framework (HCL Technologies)

- Owned end-to-end support for **25+ enterprise applications** across Java and .NET stacks, serving as the primary escalation point for mission-critical systems supporting financial and healthcare clients
- Mastered **Splunk and Dynatrace** to build predictive monitoring dashboards and alert rules, reducing mean time to detection (MTTD) by **35%** and enabling faster root cause analysis
- Developed comprehensive **runbooks and incident playbooks** in Confluence, codifying best practices for P1/P2 resolution and enabling junior engineers to resolve issues independently, improving first-response SLA by **28%**

Automated Data Pipeline & Reporting Automation (HCL Technologies)

- Built **Python-based ETL pipelines** using pandas and SQLAlchemy to ingest, transform, and validate data from heterogeneous sources (APIs, databases, flat files) into consolidated data warehouses
- Designed scheduled **reporting workflows** with cron jobs and **AWS Lambda** that automatically generated analytics dashboards and exported insights to stakeholders, eliminating **15+ hours of manual weekly effort**
- Implemented robust **data validation logic and error handling** across pipelines, catching data quality issues upstream and producing audit trails that satisfied compliance requirements for regulated industries

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
