PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and infrastructure monitoring for enterprise applications using **Splunk, CloudWatch, and Dynatrace**; ensured SLA compliance for P1/P2 incidents across distributed systems, demonstrating strong troubleshooting and incident response capabilities in third-line support environments.
- Supported cloud infrastructure on **AWS** (EC2, S3, Lambda, CloudWatch) and containerized applications using **Docker**; collaborated with infrastructure teams to optimize resource allocation and implement monitoring solutions for reliability and performance.
- Automated infrastructure operations through **Python scripting**, ETL pipelines, and scheduled reporting; developed tools for system health checks, log analysis, and data validation, reducing manual operational overhead by automating routine tasks.
- Executed change management processes using **Jenkins CI/CD pipelines** and **Git**; documented infrastructure changes, performed pre- and post-implementation verification, and maintained knowledge base for team learning and peer support.
- Performed database administration and optimization across **PostgreSQL, MySQL, and Oracle**; managed schema changes, executed ad-hoc queries for troubleshooting, and supported data integrity validation for enterprise systems.
- Demonstrated mentoring capability and escalation management; provided technical guidance on incident resolution, participated in cross-regional knowledge sharing, and contributed to globalization of infrastructure support processes across multiple time zones.

SKILLS

Cloud Platforms & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerization.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, environment monitoring, SLA management.

Databases & Data Management – PostgreSQL, MySQL, Oracle, SQL, schema management, data validation.

DevOps & CI/CD – Jenkins, Git, Linux, shell scripting, change management processes.

Automation & Scripting – Python, ETL pipelines, cron jobs, log analysis, operational automation.

Infrastructure & Support – Enterprise production support, incident response, troubleshooting, Jira, ITSM processes, Agile/Scrum.

Professional Development – MSc Data Analytics, Full Stack Java Spring Boot & Angular, Web Development, Python Programming, IELTS Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & SLA Management (HCL Technologies)

- Designed and maintained monitoring infrastructure using **Splunk, Dynatrace, and CloudWatch** for critical enterprise Java/.NET applications; tracked KPIs and ensured **99%+ SLA compliance** through proactive alerting and incident response workflows.
- Managed production support queue and incident escalation protocols; diagnosed root causes of system failures, documented resolutions, and transferred knowledge to peers, enabling faster mean-time-to-resolution (MTTR) across the support team.
- Collaborated with infrastructure and vendor teams to remediate vulnerabilities and implement security patches; maintained audit trails and change documentation in alignment with ITSM best practices.

Cloud Infrastructure Automation & Data Pipeline Development (HCL Technologies)

- Built automated operational workflows using **Python, AWS Lambda, and scheduled jobs**; engineered ETL pipelines for infrastructure data collection, validation, and reporting, reducing manual effort by **40%**.
- Developed and maintained **Jenkins CI/CD pipelines** for infrastructure provisioning and application deployment; implemented version control discipline using **Git** and conducted code reviews to ensure deployment quality.
- Optimized database queries and schema design across **PostgreSQL, MySQL, and Oracle** instances on **AWS EC2**; performed capacity analysis and provided recommendations for scaling and high-availability configurations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
