PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Delivered **second-line technical support** for enterprise applications across **25+ production systems**, resolving **P1/P2 incidents** within SLAs using **Splunk, CloudWatch, and Dynatrace** monitoring tools for proactive issue detection and rapid remediation.
- Managed **service desk ticketing** workflows via **Jira**, tracking defects and escalations; coordinated with Level 3 teams and vendors to resolve complex infrastructure and application issues efficiently.
- Performed **system maintenance, patches, and updates** on **Java/.NET applications** and underlying **Linux** environments, including kernel updates, dependency management, and configuration hardening to ensure uptime and security compliance.
- Troubleshoot and resolved infrastructure issues across **AWS (EC2, S3, Lambda, CloudWatch)** and **Docker containerized** environments; conducted **log analysis** and shell scripting to diagnose root causes and prevent recurrence.
- Created and maintained **internal documentation and knowledge base articles** in **Confluence**, capturing runbooks and troubleshooting procedures; contributed to onboarding workflows and user access provisioning via **Git** and infrastructure-as-code templates.
- Supported cloud administration tasks in **AWS Admin Center** and performed ad-hoc **SQL database queries** on **PostgreSQL, MySQL, and Oracle** for data validation and access troubleshooting; assisted in small-scale migration and upgrade projects.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git.

Monitoring & Incident Management – Splunk, Dynatrace, CloudWatch, SLA management, P1/P2 incident response.

Service Desk & Ticketing – Jira, Confluence, ticket management, escalation workflows, knowledge base creation.

Systems & Databases – PostgreSQL, MySQL, Oracle, SQL, shell scripting, log analysis.

Application Support – Java Spring Boot, REST APIs, Jenkins CI/CD, Python automation.

Soft Skills – Technical troubleshooting, SLA management, documentation, Agile/Scrum, remote collaboration.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Implemented **real-time monitoring dashboards** using **Splunk and Dynatrace** to track application health across **25+ production services**, reducing mean-time-to-detection (MTTD) by **30%** for critical infrastructure events.
- Developed **Python automation scripts** to parse logs, aggregate alerts, and trigger escalation workflows in **Jira**, automating routine P2 incident triage and freeing support team capacity for complex problem-solving.
- Maintained comprehensive **runbooks and troubleshooting guides** in **Confluence** covering incident response procedures, database recovery steps, and **AWS** infrastructure diagnostics; trained junior engineers on escalation protocols and SLA compliance.

Cloud Infrastructure Maintenance & Patching Program (HCL Technologies)

- Designed and executed **automated patching pipelines** using **Jenkins CI/CD** and shell scripting to deploy security updates across **Docker containers** and **Linux** hosts, reducing manual maintenance effort by **40%** while maintaining **99.5%** availability.
- Coordinated **small-scale migration projects** involving containerization of legacy **Java Spring Boot** applications; validated database migrations on **PostgreSQL and MySQL** and verified **AWS** infrastructure configuration post-deployment.
- Documented infrastructure-as-code templates and access provisioning procedures in **Git** repositories, enabling rapid onboarding/offboarding of users and reducing account setup time by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
