

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Built and maintained **Python**-based **data pipelines** and **ETL workflows** for enterprise Java/.NET applications, enabling real-time analytics and scheduled reporting across production environments
- Engineered **REST APIs** and backend services using **Java Spring Boot**, delivering feature implementations and bug fixes while maintaining **SLA compliance** in **P1/P2 incident response**
- Designed and executed **SQL** queries across **PostgreSQL, MySQL, and Oracle** databases for ad-hoc data validation, schema optimization, and business intelligence support
- Deployed and monitored cloud infrastructure using **AWS (EC2, S3, Lambda, CloudWatch)** with hands-on experience in containerization via **Docker**, supporting scalable backend systems
- Collaborated cross-functionally with technical and non-technical stakeholders on reliability and observability improvements using **Splunk, Dynatrace, and CloudWatch** for production diagnostics
- Automated operational tasks with **Linux shell scripting** and **Python automation**, integrated **CI/CD pipelines** via **Jenkins** and **Git**, and participated in Agile ceremonies and code reviews

SKILLS

Backend & Languages – Python, Java, SQL, REST APIs, Spring Boot.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Data Engineering – ETL, data pipelines, PostgreSQL, MySQL, Oracle, pandas, NumPy.

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, production support.

Additional Technologies – Flask, FastAPI, Jira, Confluence, Agile/Scrum.

ML/Data Fundamentals – Data analysis, Python scripting for automation, structured query optimization.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Java Application Production Support & Optimization (HCL Technologies)

- Owned production monitoring and incident response for mission-critical enterprise applications using **Splunk, CloudWatch, and Dynatrace**, achieving **consistent SLA compliance** through rapid P1/P2 triage and resolution
- Developed **Python**-based automation scripts to streamline log analysis and alerting, reducing mean time to recovery (MTTR) for recurring issues

- Conducted root cause analysis and implemented preventative measures using **Linux** shell scripting and cron-based scheduled jobs for operational efficiency

Data Pipeline & Feature Engineering (HCL Technologies)

- Architected **ETL workflows** using **Python, pandas, and NumPy** to ingest, transform, and load enterprise data, enabling downstream analytics and reporting
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** to improve data validation performance and support dynamic business intelligence dashboards
- Deployed pipeline infrastructure on **AWS (Lambda, S3)** with containerized services via **Docker**, integrated with **Jenkins CI/CD** for automated testing and release management

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
