

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and delivered **Java Spring Boot** microservices and **REST APIs** for enterprise applications, contributing to full lifecycle development from requirements through testing and production deployment in an **agile** environment.
- Drove operational excellence through **production support and monitoring** of highly available systems using **Splunk, CloudWatch, and Dynatrace**, managing SLA commitments and resolving **P1/P2 incidents** with a focus on reliability and data-driven quality.
- Automated infrastructure and data workflows using **Python scripting** for ETL pipelines, scheduled reporting, and system tasks, reducing manual overhead and improving deployment consistency across **AWS** environments.
- Built and maintained **CI/CD pipelines** with **Jenkins** and **Git**, implementing code reviews and branching strategies to ensure continuous delivery of reliable features and improvements to production systems.
- Leveraged **SQL** across **PostgreSQL, MySQL, and Oracle** for ad-hoc data analysis, schema optimization, and validation—applying a scientific, problem-solving approach to complex data challenges.
- Collaborated with cross-functional teams in **Jira** and **Confluence**, demonstrating flexibility and clear communication in diverse, fast-paced environments while maintaining high attention to detail and commitment to quality outcomes.

SKILLS

Programming Languages – Java, Python, SQL.

Backend & Frameworks – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD.

Databases – PostgreSQL, MySQL, Oracle.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch.

Tools & Practices – Linux, Jira, Confluence, Agile, Scrum.

Data & Analytics – pandas, NumPy, ETL, data pipelines.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices & Reliability Engineering (HCL Technologies)

- Architected and maintained **Spring Boot microservices** serving critical business functions, implementing robust **REST API** endpoints with a focus on high availability and zero-downtime deployments.

- Implemented end-to-end **DevOps practices** including **Docker containerisation**, **AWS infrastructure** provisioning (EC2, S3, Lambda), and **Jenkins CI/CD pipelines** to automate testing and deployment workflows.
- Reduced mean-time-to-resolution (MTTR) by **30%** through proactive monitoring via **Splunk and Dynatrace**, identifying performance bottlenecks, and implementing data-driven remediation strategies across microservice architecture.

Automation & Data Pipeline Engineering (HCL Technologies)

- Designed and deployed **Python**-based ETL pipelines and scheduled reporting systems using **pandas and NumPy**, processing large datasets and automating routine data validation tasks to improve operational efficiency.
- Wrote complex **SQL queries** and schema optimizations across **PostgreSQL and Oracle** databases, enabling faster ad-hoc analysis and reducing query execution time by up to **40%**.
- Developed **Linux shell scripts** and **cron job automations** to streamline infrastructure management and data workflows, demonstrating problem-solving aptitude and the ability to learn and apply new technical skills quickly.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
