PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and delivered **RESTful APIs** and microservices using **Java Spring Boot**, implementing feature work and bug fixes across enterprise applications serving thousands of concurrent users; collaborated with product and design teams to translate requirements into elegant, maintainable components.
- Led **production support and reliability engineering** for mission-critical **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, achieving **99.5% SLA uptime** through rapid P1/P2 incident response, root cause analysis, and proactive monitoring strategies.
- Architected and deployed **Python-based data pipelines and ETL workflows** on **AWS Lambda and EC2**, automating scheduled reporting and data validation across **PostgreSQL, MySQL, and Oracle** databases; reduced manual processing overhead by **40%**.
- Implemented **CI/CD pipelines using Jenkins and Git** with automated testing and code review workflows, enabling fast iteration and continuous delivery; containerized applications using **Docker** for consistent cross-platform deployment.
- Demonstrated strong problem-solving and scientific approach by troubleshooting complex production issues through log analysis, **Linux shell scripting**, and data-driven investigation; acted as a technical detective to understand customer impact and engineer improvements.
- Thrived in Agile team environments using **Jira and Confluence**, communicating technical decisions with clarity and precision; committed to quality outcomes through attention to detail, test strategies, and continuous learning across diverse tech stacks.

SKILLS

Backend & API Development – Java, Spring Boot, RESTful APIs, API design, microservices architecture.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD pipelines.

Data & Scripting – Python, SQL (PostgreSQL, MySQL, Oracle), ETL, data pipelines, pandas, NumPy.

Monitoring & Reliability – Splunk, Dynatrace, production support, SLA management, incident response.

Frontend & UI (Basic) – React, Angular, TypeScript/JavaScript.

Infrastructure & Tools – Linux, shell scripting, Jira, Confluence, Agile/Scrum.

Education – MSc Data Analytics, Bachelor of Engineering (Computer Science).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring Platform (HCL Technologies)

- Owned production support and monitoring for large-scale **Java/.NET applications** using **Splunk and CloudWatch**, managing SLAs and orchestrating P1/P2 incident response across global teams.
- Designed **Python automation scripts** and **shell-based monitoring tools** to detect anomalies, validate data integrity, and reduce mean-time-to-resolution (MTTR) by **30%**.
- Collaborated with cross-functional teams to troubleshoot complex issues, analyze logs, and implement preventive measures; documented runbooks and knowledge base articles to empower team self-service.

Data Pipeline & Reporting Automation System (HCL Technologies)

- Built end-to-end **Python ETL pipelines** using **AWS Lambda and EC2** to ingest, transform, and load data from multiple sources into **PostgreSQL and MySQL** databases; scheduled jobs using cron and deployed via **CI/CD Jenkins pipelines**.
- Implemented **RESTful APIs** using **Flask and FastAPI** to expose data and support downstream reporting; integrated with **Docker containers** for consistent deployment across environments.
- Optimized query performance and data validation logic, reducing pipeline execution time by **35%**; authored comprehensive test strategies and automated tests within CI pipelines to ensure quality and reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
