

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and executed **data pipelines** and **ETL workflows** using **Python** to process, validate, and trend laboratory and operational data; automated recurring reporting tasks to support batch documentation and quarterly/annual data analysis
- Supported production monitoring and reliability engineering of enterprise applications using **Splunk**, **CloudWatch**, and **Dynatrace**; managed SLA compliance and P1/P2 incident response, demonstrating ability to work logically and proactively under pressure in time-sensitive environments
- Performed **SQL** data validation and ad-hoc querying across **PostgreSQL**, **MySQL**, and **Oracle** databases; identified data anomalies and schema issues to ensure accuracy of batch records and compliance reporting
- Collaborated with cross-functional teams using **Jira**, **Confluence**, and Agile ceremonies to document processes, requirements, and improvements; actively participated in code reviews and facilitated knowledge sharing across engineering groups
- Deployed and managed **AWS** infrastructure (**EC2**, **S3**, **Lambda**, **CloudWatch**) and containerised applications using **Docker**; supported CI/CD pipelines via **Jenkins** to enable reliable, repeatable deployments aligned with quality standards
- Completed **MSc in Data Analytics** with advanced coursework in statistical analysis, data visualization, and Python-driven analytics; equipped with technical foundation to support Process Analytical Technology (PAT) adoption and continuous improvement initiatives

SKILLS

Data & Analytics – Python, SQL, pandas, NumPy, data pipelines, ETL, reporting and trending, batch data analysis.

Laboratory & Operations Systems – data validation, documentation generation, process automation, Jira, Confluence.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, incident response, SLA management.

Software Development – Java Spring Boot, REST APIs, Git, Jenkins CI/CD, code review.

Certifications & Education – MSc Data Analytics (National College of Ireland), IELTS Band 7, Full Stack Java Spring Boot & Angular, Python Programming (Coursera).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Laboratory Data Reporting & Trending (HCL Technologies)

- Developed **Python**-based ETL workflows to extract raw laboratory data from multiple sources, validate accuracy, and load into centralised repository for batch documentation and end-of-quarter reporting
- Implemented automated **SQL** queries to trend key metrics and generate compliance-ready reports; reduced manual data collation effort by approximately **40%**
- Collaborated with operations and analytics teams to define data schemas, quality gates, and documentation standards aligned with regulatory and business requirements

Production Monitoring & Reliability Engineering (HCL Technologies)

- Supported enterprise application reliability using **Splunk**, **Dynatrace**, and **CloudWatch**; monitored system health, identified performance bottlenecks, and escalated incidents with root-cause analysis
- Managed P1/P2 incident response and SLA compliance; demonstrated ability to remain logical, proactive, and organised when working under pressure to restore service
- Automated routine monitoring tasks using **Python** shell scripts and **AWS Lambda** to reduce manual overhead and improve response time consistency

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
