

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Performed **production monitoring and reliability engineering** on enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**, managing **P1/P2 incident response** and SLA compliance across distributed systems.
- Developed **Python automation scripts and data pipelines** for ETL workflows and scheduled reporting, enabling **efficient data collection and baseline development** across multiple environments.
- Conducted **SQL-based data analysis** (PostgreSQL, MySQL, Oracle) for ad-hoc queries, data validation, and schema optimization, supporting technical decision-making and system performance tuning.
- Built and maintained **Java Spring Boot REST APIs** and microservices, contributing to feature development and bug resolution in production systems serving enterprise clients.
- Deployed and managed cloud infrastructure using **AWS (EC2, S3, Lambda, CloudWatch)** and **Docker containerization**, with hands-on experience in CI/CD pipelines via **Jenkins and Git**.
- Supported technical documentation, defect tracking, and Agile workflows using **Jira and Confluence**; demonstrated strong communication skills across cross-functional engineering teams.

SKILLS

Data & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, data pipelines, ETL, baseline analysis.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, CI/CD (Jenkins, Git).

Backend Development – Java, Spring Boot, REST APIs, application support, monitoring.

Monitoring & Reliability – Splunk, Dynatrace, incident response, SLA management, log analysis.

Technical Communication – Technical documentation, Jira, Confluence, Agile/Scrum, stakeholder reporting.

Additional Capabilities – Flask, FastAPI, React, Angular, full-stack development fundamentals.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed real-time **production monitoring and alerting** for mission-critical enterprise applications, reducing mean time to response (MTTR) through proactive **Splunk and CloudWatch** dashboard configuration.
- Investigated and resolved **P1/P2 incidents** by analyzing application logs, system metrics, and performance data, maintaining **SLA compliance** across multiple service tiers.

- Collaborated with senior reliability engineers to implement monitoring best practices and improve system observability, directly supporting industrial-scale operational excellence.

Data Pipeline Development & Energy Efficiency Analysis (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** to extract, transform, and validate large datasets from distributed cloud environments, enabling efficient data collection and reporting.
- Conducted **SQL analysis on energy and operational metrics**, identifying inefficiencies and consumption patterns to support data-driven optimization recommendations.
- Automated scheduled data collection and baseline reporting using **Python, cron jobs, and AWS Lambda**, reducing manual effort by **40%** and improving data accuracy for technical stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
