PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support and reliability engineering** for enterprise Java/.NET applications across **AWS** infrastructure, managing **P1/P2 incidents** and maintaining SLA compliance using **Splunk, CloudWatch, and Dynatrace** monitoring tools.
- Authored and reviewed **technical documentation** for system configurations, deployment protocols, and infrastructure changes; communicated requirements and specifications across cross-functional teams in Agile/Scrum ceremonies.
- Developed **Python automation scripts** and **ETL data pipelines** for system validation, data integrity checks, and scheduled reporting; demonstrated strong problem-solving skills in root cause analysis and system troubleshooting.
- Performed **SQL database operations** (PostgreSQL, MySQL, Oracle) including schema changes, ad-hoc queries, and data validation; ensured data accuracy and system reliability through rigorous testing protocols.
- Supported **CI/CD deployment pipelines** using **Jenkins** and **Git**; managed code reviews and version control to ensure system stability and compliance with change management procedures.
- Demonstrated high attention to detail and organizational skills in **Linux** administration, log analysis, and system maintenance; recognized the importance of quality and integrity in supporting mission-critical applications.

SKILLS

Backend & Application Development – Java, Spring Boot, REST APIs, Python.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Database & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, ETL, pandas, NumPy.

Monitoring, Logging & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

DevOps & Deployment – Jenkins, Git, CI/CD pipelines, shell scripting.

Project & Quality Management – Jira, Confluence, Agile/Scrum, documentation, cross-functional communication.

Operating Systems – Linux, Windows (enterprise support experience).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support & Monitoring (HCL Technologies)

- Managed **24/7 production support** for mission-critical Java and .NET applications deployed on **AWS**, responding to high-priority incidents and maintaining uptime through proactive **Splunk and Dynatrace**

monitoring.

- Authored **runbooks and technical documentation** for incident response procedures, deployment protocols, and system configurations; ensured clear communication of requirements and specifications to support teams.
- Performed root cause analysis and system troubleshooting; demonstrated detail-oriented problem-solving to resolve P1/P2 incidents within SLA windows and prevent recurrence through corrective actions.

Data Pipeline & System Validation Automation (HCL Technologies)

- Designed and deployed **Python automation scripts** and **ETL pipelines** for data validation, integrity checks, and scheduled reporting across enterprise systems.
- Executed **SQL database operations** (PostgreSQL, MySQL, Oracle) including schema changes and ad-hoc queries to validate data accuracy and support system reliability engineering.
- Implemented **Jenkins CI/CD pipelines** with **Git** version control to automate deployment and testing; collaborated with cross-functional teams through code reviews and Agile ceremonies to ensure quality and compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
