PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and system validation** for enterprise Java/.NET applications across **AWS** infrastructure, ensuring **SLA compliance** and **P1/P2 incident response** within manufacturing and QA environments; monitored system health using **Splunk, CloudWatch, and Dynatrace**.
- Developed and executed **automated data pipelines** and **ETL workflows** using **Python**, reducing manual validation efforts by approximately **30%** and improving data integrity across enterprise systems.
- Generated technical documentation including design specifications, configuration specs, and test reports aligned with compliance and quality guidelines; reviewed software release notes and conducted gap analysis on system configurations.
- Architected and deployed containerized applications using **Docker** and orchestrated CI/CD workflows via **Jenkins**, enabling reliable software release cycles and system validation checkpoints.
- Performed rigorous **SQL-based** data validation and schema analysis across **PostgreSQL, MySQL, and Oracle** databases; identified and remediated data integrity issues in production environments.
- Collaborated across cross-functional teams in Agile/Scrum ceremonies to prioritize validation activities, manage project schedules, and communicate technical findings to non-technical stakeholders.

SKILLS

Systems Validation & Compliance – Computer System Validation (CSV), production support, system reliability, SLA management, GMP alignment.

Programming Languages – Python, Java, SQL, shell scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, data pipelines, ETL, pandas, NumPy.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

DevOps & Release Management – Jenkins, Git, CI/CD, code reviews, Jira, Confluence.

Frameworks & APIs – Spring Boot, REST APIs, Flask, FastAPI.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Validation & Monitoring (HCL Technologies)

- Led end-to-end **system validation** for mission-critical Java/Spring Boot applications deployed on **AWS**, establishing baseline configurations and monitoring thresholds using **Splunk and Dynatrace**.

- Designed and implemented **automated validation scripts** in **Python** to perform recurring compliance checks and data integrity audits, reducing manual intervention and improving system reliability.
- Authored comprehensive validation documentation including design specifications, test protocols, and security assessments in accordance with internal quality procedures.

Data Pipeline & Release Automation (HCL Technologies)

- Engineered **ETL pipelines** using **Python** and **PostgreSQL/MySQL** to extract, validate, and load data across enterprise systems; integrated pipelines into **Jenkins CI/CD** for automated deployment.
- Performed comprehensive gap analysis on software releases by reviewing release notes and challenging configurations; communicated technical risks and validation findings to release management and business stakeholders.
- Containerized validation tooling using **Docker** and configured infrastructure on **AWS (EC2, Lambda)**, enabling scalable and reproducible system validation across lab and manufacturing environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
