PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Delivered **24/7 production support** for enterprise **Java/.NET applications** serving hundreds of customers, achieving **SLA compliance** through rapid P1/P2 incident response and root cause analysis using **Splunk, CloudWatch, and Dynatrace**.
- Resolved customer-impacting issues and technical inquiries via systematic troubleshooting, **self-service resource discovery**, and cross-functional collaboration with development teams to drive **first-contact resolution** and customer satisfaction.
- Designed and deployed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting, reducing manual operational overhead and enabling proactive issue detection across production environments.
- Developed and maintained **REST APIs** and backend features using **Spring Boot**, demonstrating hands-on understanding of web architecture, data flow, and API-driven eCommerce integrations.
- Managed cloud infrastructure and containerization using **AWS (EC2, S3, Lambda, CloudWatch)** and **Docker**, gaining deep familiarity with how hosting technologies, databases, and web services integrate in modern SaaS platforms.
- Collaborated within Agile/Scrum teams using **Jira, Confluence, Jenkins, and Git**, consistently demonstrating teamwork, clear written and verbal communication, and commitment to continuous product and process improvement.

SKILLS

Technical Support & Troubleshooting – Production support, P1/P2 incident response, SLA management, root cause analysis, first-contact resolution, self-service resource discovery.

Web & eCommerce Technologies – REST APIs, Spring Boot, HTML, CSS, JavaScript, data structures, hosting fundamentals, cloud infrastructure.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, log analysis.

Data & Backend Engineering – Python, SQL (PostgreSQL, MySQL, Oracle), ETL pipelines, data validation, pandas, NumPy.

DevOps & Collaboration Tools – Jenkins, Git, Jira, Confluence, CI/CD pipelines, Agile/Scrum.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, performance analysis, alerting.

Communication – Technical writing, verbal communication, customer-facing interaction, cross-functional collaboration.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Production Support & Reliability Engineering (HCL Technologies)

- Monitored and maintained uptime for mission-critical **Java/.NET applications** across multiple customer deployments, leveraging **Splunk, Dynatrace, and CloudWatch** to detect, triage, and resolve incidents within strict SLA windows.
- Conducted systematic troubleshooting of complex customer-reported issues, identifying system bottlenecks and configuration problems through log analysis, SQL queries, and **Linux** command-line diagnostics.
- Collaborated with development and DevOps teams to document resolutions, create knowledge base articles, and implement preventive measures that reduced repeat incidents by streamlining support processes.

Data Pipeline Automation & Operational Intelligence (HCL Technologies)

- Built **Python-based ETL scripts** and automated reporting workflows using **pandas and NumPy**, processing large datasets across **PostgreSQL, MySQL, and Oracle** databases to enable real-time operational dashboards.
- Deployed automated jobs via **Jenkins CI/CD pipelines** and **cron scheduling**, reducing manual data validation effort and enabling early detection of anomalies in production environments.
- Developed **REST API integrations** using **Spring Boot** to connect data pipelines with downstream systems, demonstrating end-to-end understanding of how web services, databases, and cloud infrastructure work together in SaaS ecosystems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
