PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Drove **production reliability and operational efficiency** for enterprise Java/.NET applications across **AWS, Docker, and on-premises infrastructure**, managing SLA adherence and resolving **P1/P2 incidents** using **Splunk, CloudWatch, and Dynatrace** monitoring platforms.
- Translated business requirements into optimized technical workflows by conducting **root cause analysis** on production issues, documenting process improvements, and presenting findings to stakeholders—bridging operations and engineering teams.
- Built **Python automation scripts and ETL pipelines** to standardize data collection and reporting; designed **SQL queries** across **PostgreSQL, MySQL, and Oracle** to extract insights and validate data quality across enterprise systems.
- Architected and deployed **REST APIs using Java Spring Boot** and containerized solutions with **Docker**; implemented **CI/CD pipelines in Jenkins** with rigorous code reviews and Git workflows, reducing deployment friction.
- Trained operations teams on process standardization, system monitoring best practices, and incident response workflows; documented institutional knowledge in **Confluence** to ensure consistency and reduce knowledge silos.
- Analyzed operational metrics and built business cases demonstrating cost savings and efficiency gains from process improvements; proficient in **Excel, data visualization, and presenting insights** to senior technical and business stakeholders.

SKILLS

Process Engineering & Optimization – process documentation, workflow optimization, root cause analysis, standardization, SLA management.

Data Analysis & SQL – PostgreSQL, MySQL, Oracle, data validation, ad-hoc query development, ETL design.

Programming & Automation – Python, Java, Spring Boot, REST APIs, shell scripting, automation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, CI/CD pipelines, Jenkins.

Monitoring & Reliability – Splunk, Dynatrace, incident response, production support, operational metrics.

Communication & Tools – Jira, Confluence, Excel, stakeholder management, technical documentation, Agile.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Established **real-time monitoring dashboards** using **Splunk and Dynatrace** for critical Java/.NET services; reduced mean time to detection (MTTD) by proactively identifying performance degradation patterns.
- Led **P1/P2 incident response** procedures, conducting structured root cause analysis and documenting process improvements to prevent recurrence; achieved **95%+ SLA compliance** across production workloads.
- Automated incident triage and alerting workflows using **Python scripts** and **AWS CloudWatch integrations**, reducing manual intervention time and enabling faster escalation to engineering teams.

Data Pipeline & Reporting Automation (HCL Technologies)

- Designed and deployed **ETL pipelines in Python** using **pandas and NumPy** to consolidate operational data from multiple **SQL databases** (PostgreSQL, MySQL, Oracle) into standardized reporting structures.
- Built automated **scheduled reporting workflows in Jenkins**, eliminating manual data collection and delivering daily operational metrics to business stakeholders; improved data freshness and accuracy.
- Documented business logic and data transformations in **Confluence**, creating institutional knowledge repositories that enabled team members to understand, maintain, and extend pipelines independently.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
