PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Delivered **Level 2 production support** for enterprise Java/.NET applications serving **200+ deployments**, managing P1/P2 incidents with **SLA compliance** using **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and root cause analysis
- Diagnosed and resolved **application and system issues** across multiple environments by analyzing logs, executing **SQL queries** against **PostgreSQL, MySQL, and Oracle** databases, and coordinating fixes with development teams
- Designed and maintained **Python automation scripts** for data validation, ETL pipelines, and scheduled reporting; built **REST APIs** using **Java Spring Boot** to support test environments and customer-facing integrations
- Supported customer test sessions and offline ticket resolution by documenting issues, performing root cause assessments, and preparing detailed technical reports for engineering and support teams
- Coordinated with **UAT and development teams** on deployments across staging and production environments using **Jenkins CI/CD pipelines, Git version control, and Docker containerization**
- Demonstrated rapid mastery of employer-specific systems and processes; proactively identified performance optimization opportunities and provided solutions for medium- to high-complexity infrastructure and application issues

SKILLS

Database & Query Languages – SQL, PostgreSQL, MySQL, Oracle, data validation, schema analysis.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, log analysis.

Application Support & Monitoring – Splunk, Dynatrace, production support, incident response, SLA management.

Development & Scripting – Java Spring Boot, Python, REST APIs, automation, ETL.

DevOps & Collaboration – Jenkins, Git, Jira, Confluence, Agile/Scrum, code reviews.

Soft Skills – Root cause analysis, technical documentation, customer support, problem-solving, multitasking.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Management (HCL Technologies)

- Implemented **proactive monitoring dashboards** using **Splunk and Dynatrace** to track application health across **Java/Spring Boot services** and **AWS infrastructure**

- Managed **P1/P2 incident response cycles**, performing root cause analysis on database and application layer failures; coordinated with development teams to deploy hotfixes via **Jenkins pipelines**
- Authored **SQL-based diagnostic queries** against **PostgreSQL and Oracle** to validate data integrity and identify performance bottlenecks during customer test sessions

Test Support Automation & Data Pipeline Engineering (HCL Technologies)

- Designed and deployed **Python ETL scripts** using **pandas and NumPy** to automate test data validation, reducing manual effort by **40%** and improving UAT environment readiness
- Built **REST API endpoints** using **Java Spring Boot** to enable offline ticket support workflows and streamline communication between support and development teams
- Containerized test support applications using **Docker** and orchestrated multi-environment deployments across staging and production via **Git and Jenkins**, ensuring consistency and reliability

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
