

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **Python-based ETL pipelines** for enterprise Java/.NET applications, processing structured and semi-structured data with **pandas** and **NumPy** to support analytics and reporting workflows
- Built **REST APIs** and data integration solutions using **Java Spring Boot** and **Flask**, enabling seamless data flow across microservices in cloud environments
- Leveraged **AWS cloud services (EC2, S3, Lambda, CloudWatch)** to architect scalable data solutions; containerized applications with **Docker** for consistent deployment and resource optimization
- Implemented **SQL-based data quality controls** across **PostgreSQL, MySQL, and Oracle** databases, validating schema integrity and performing ad-hoc analysis to support data governance standards
- Automated infrastructure provisioning and monitoring using **Jenkins CI/CD pipelines, Git version control**, and cloud-native monitoring tools (**Splunk, Dynatrace, CloudWatch**), achieving **99%+ SLA compliance** in production environments
- Demonstrated continuous learning by completing **MSc in Data Analytics** while managing full-time responsibilities; actively applied emerging technologies and analytical frameworks to enhance data pipeline performance and reliability

SKILLS

Data Engineering & ETL – Python, SQL, data pipeline development, ETL/ELT design, data quality controls.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Programming Languages – Python, Java, SQL, Shell scripting.

Frameworks & Tools – Spring Boot, Flask, REST APIs, pandas, NumPy, Jira, Confluence.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

Databases – PostgreSQL, MySQL, Oracle, schema design, data modeling.

Methodologies – Agile/Scrum, code review, technical documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline Automation (HCL Technologies)

- Developed **Python-based automated data pipelines** that ingested, transformed, and validated financial and operational data from multiple enterprise systems, reducing manual reporting effort by **60%**
- Implemented **SQL schema optimization** and data quality checks across **PostgreSQL and Oracle** databases, ensuring data integrity for downstream analytics and compliance reporting

- Deployed pipeline infrastructure on **AWS** using **Lambda, S3, and CloudWatch**, with **Jenkins CI/CD automation** enabling daily scheduled execution and real-time monitoring

Production Reliability & API Integration (HCL Technologies)

- Managed **SLA-critical production support** for enterprise applications using **Splunk and Dynatrace**, reducing mean-time-to-resolution (MTTR) for P1/P2 incidents by **35%**
- Designed and deployed **REST APIs** using **Spring Boot** to enable seamless integration between data systems, supporting business-critical workflows across the organization
- Automated infrastructure monitoring and alerting through **CloudWatch dashboards** and **Jenkins pipelines**, improving observability and enabling proactive issue resolution

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
