PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated production system performance and validated technical outputs across enterprise **Java/.NET** applications using **Splunk, CloudWatch, Dynatrace**, ensuring **SLA compliance** and rapid P1/P2 incident resolution in quantitative monitoring environments.
- Designed and executed **Python-based data pipelines, ETL workflows, and statistical reporting** systems, writing well-documented analytical code for automated data validation and schema analysis across **PostgreSQL, MySQL, Oracle** databases.
- Developed **REST APIs and predictive backend services** using **Java Spring Boot**, combining statistical reasoning with software engineering to support data-driven decision-making across production systems.
- Built and deployed containerized applications on **AWS (EC2, S3, Lambda, CloudWatch)** using **Docker**, translating quantitative requirements into scalable infrastructure for analytics workloads.
- Authored technical documentation and provided code review feedback on analytical work within **Git, Jenkins CI/CD pipelines** and Agile ceremonies, ensuring clarity and rigor in quantitative implementations.
- Completed **MSc in Data Analytics** with hands-on experience in statistical methods, predictive modeling, and experiment design—directly applicable to evaluating AI-generated quantitative analysis and technical reasoning.

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting, Git.

Data Engineering & Analysis – ETL pipelines, pandas, NumPy, PostgreSQL, MySQL, Oracle, data validation.

Statistical & Quantitative Methods – Hypothesis testing, regression analysis, predictive modeling, A/B testing, time-series analysis.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Linux.

Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.

Monitoring & Reliability – Splunk, Dynatrace, SLA management, incident response.

Qualifications – MSc Data Analytics, BE Computer Science, IELTS Band 7, English (fluent).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Performance & Reliability Engineering (HCL Technologies)

- Monitored and validated real-world performance of **Java/.NET applications** using **Splunk and Dynatrace**, evaluating accuracy of system outputs and ensuring technical reliability across SLA-critical workloads.

- Conducted root-cause analysis on P1/P2 incidents, writing technical reports that shaped reliability improvements—analogueous to evaluating AI reasoning on complex analytical problems.
- Implemented **CloudWatch-based alerting** and automated response workflows, combining data analysis with engineering to ensure systems performed as designed.

Data Pipeline & Statistical Reporting System (HCL Technologies)

- Designed end-to-end **Python ETL pipelines** with **pandas and NumPy**, extracting, transforming, and validating quantitative data across **PostgreSQL and Oracle** for scheduled statistical reporting.
- Wrote well-documented analytical code with hypothesis validation and statistical checks, ensuring data integrity and accuracy across predictive datasets.
- Deployed pipelines on **AWS Lambda** and orchestrated via **Jenkins CI/CD**, enabling automated, reliable quantitative analysis at scale.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
