PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **REST APIs** in **Java Spring Boot**, writing clear, high-quality code with comprehensive test coverage and detailed technical documentation for enterprise applications serving **500K+** transactions daily.
- Evaluated and optimized **AI-generated code** for accuracy, performance, and clarity using **Python** and **Java**; provided detailed feedback on code quality, edge cases, and best practices to refine model outputs.
- Developed **Python** automation scripts and **ETL pipelines** for data processing and validation, demonstrating strong problem-solving skills across diverse coding challenges and data engineering tasks.
- Solved complex coding problems and synthesized insights through **SQL** query optimization, **data analysis** with **pandas** and **NumPy**, and performance tuning on **AWS** infrastructure (**EC2, S3, Lambda**).
- Executed reliability engineering and production support using **Splunk, CloudWatch, Dynatrace**; managed **P1/P2 incidents** with **SLA adherence**, demonstrating attention to detail and problem-solving under pressure.
- Collaborated with cross-functional teams using **Git, Jenkins CI/CD pipelines**, and **Agile workflows**; maintained excellent written communication through code reviews, documentation, and Jira defect tracking.

SKILLS

Core Programming Languages – Java, Python, JavaScript, C#.
Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.
Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, pandas, NumPy.
Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.
DevOps & Tools – Jenkins, Git, Jira, Confluence, CI/CD pipelines.
Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, incident response.
Frontend Basics – React, Angular, HTML, CSS.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

- Enterprise Java REST API Development & Code Quality (HCL Technologies)**
- Designed and implemented **REST APIs** using **Spring Boot** for enterprise microservices; wrote clean, well-documented code with comprehensive test coverage following industry best practices.
 - Evaluated AI-generated **Java** code snippets for correctness, performance, and maintainability; provided detailed feedback on logic, edge cases, and optimization opportunities.

- Conducted peer code reviews on **Git** branches within **Jenkins CI/CD pipelines**, ensuring code quality standards and contributing to team knowledge sharing.

Python Automation, Data Engineering & Problem Solving (HCL Technologies)

- Developed **Python** scripts for production automation, ETL pipelines, and scheduled reporting; solved diverse coding problems with clear logic and attention to edge cases.
- Performed **SQL** query optimization and **data analysis** using **pandas**, **NumPy** to synthesize insights from large datasets; validated data integrity across **PostgreSQL**, **MySQL**, **Oracle** databases.
- Debugged complex reliability issues using **Splunk**, **CloudWatch**, **Dynatrace**; analyzed logs and performance metrics on **AWS** infrastructure to resolve production incidents with **SLA adherence**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
