PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and debugged **Java Spring Boot** REST APIs and microservices in production, writing clean, well-documented code snippets for feature development and defect fixes across enterprise applications.
- Evaluated system reliability through **production monitoring** with **Splunk, CloudWatch, and Dynatrace**, responding to **P1/P2 incidents** and providing detailed analysis to shape system improvements—directly analogous to assessing AI-generated code for accuracy and performance.
- Automated data pipelines and ETL workflows using **Python** scripting, **pandas**, and **SQL** (PostgreSQL, MySQL, Oracle), writing executable code that processes and validates large datasets with clarity and precision.
- Demonstrated strong technical communication through **code reviews** and detailed feedback in **Jira/Confluence**, explaining implementation decisions and guiding team members on best practices—transferable to providing actionable feedback for AI model training.
- Built containerized applications with **Docker** and deployed infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**, automating workflows via **Jenkins CI/CD pipelines** and **Git** branching strategies.
- Completed **MSc in Data Analytics** with coursework in statistical analysis, data visualization, and programming methodologies; holds certifications in **Full Stack Java Spring Boot**, web development, and **Python programming**.

SKILLS

Programming Languages – Python, Java, JavaScript, SQL.

Web & API Development – Spring Boot, REST APIs, Flask, FastAPI, Angular, React.

Data Engineering & Analysis – ETL pipelines, pandas, NumPy, PostgreSQL, MySQL, Oracle, data validation.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Monitoring & Reliability – Splunk, Dynatrace, production support, incident response, SLA management.

Tools & Practices – Jira, Confluence, Agile/Scrum, code review, shell scripting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices Development & Production Support (HCL Technologies)

- Developed and maintained **Java Spring Boot** microservices handling REST API endpoints for core business logic; implemented feature work and resolved defects with clear, production-ready code.
- Managed production reliability using **Splunk and CloudWatch** to monitor application health, diagnose issues, and respond to critical incidents with detailed root-cause analysis and remediation steps.

- Participated in **code review** cycles, providing constructive feedback on code quality, performance, and maintainability to ensure team-wide adherence to best practices.

Automated Data Pipeline & ETL Development (HCL Technologies)

- Designed and implemented **Python**-based ETL pipelines and automated reporting workflows using **pandas**, **NumPy**, and **SQL** queries across **PostgreSQL**, **MySQL**, and **Oracle** databases.
- Executed schema changes and ad-hoc data validation queries to ensure data integrity and support downstream analytics; documented processes and code for team maintainability.
- Deployed automation scripts on **AWS Lambda** with scheduled execution via **Jenkins CI/CD pipelines**, reducing manual reporting effort and enabling real-time data insights.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
