+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and evaluated **REST APIs** and **Java Spring Boot** microservices in production environments, writing clear, high-quality code with comprehensive documentation to support system reliability and maintainability.
- Developed **Python** automation scripts and **data pipelines** for ETL workflows, leveraging **pandas** and **NumPy** for data validation and analysis across multiple data sources.
- Solved complex technical problems and debugged production issues across **Java**, **Python**, and **SQL** codebases, providing detailed explanations and root-cause analysis to prevent recurrence.
- Built and evaluated containerized applications using **Docker** and deployed to **AWS** infrastructure (**EC2**, **S3**, **Lambda**), ensuring code quality and performance standards.
- Collaborated with cross-functional teams in **Agile/Scrum** environments to review code, provide constructive feedback, and mentor junior engineers on coding best practices and design patterns.
- Demonstrated fluency in **English** through technical documentation, code reviews, and stakeholder communication; currently completing **MSc in Data Analytics** with strong academic performance.

SKILLS

Core Programming Languages – Python, Java, JavaScript, SQL, C++.

Web & API Development – Spring Boot, REST APIs, Flask, FastAPI, React, Angular.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, ETL, data validation.

DevOps & Monitoring – CI/CD pipelines, Splunk, Dynatrace, CloudWatch, log analysis.

Software Engineering Practices – Agile/Scrum, code review, technical writing, problem-solving.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java/Spring Boot Microservices (HCL Technologies)

- Developed and maintained **REST APIs** using **Java Spring Boot** framework, implementing feature work and bug fixes across multiple production services with **PostgreSQL** and **MySQL** backends.
- Wrote clear, well-documented code with detailed API specifications and usage examples to support integration with downstream systems and enable rapid onboarding of new team members.
- Collaborated in code reviews to evaluate code quality, performance, and clarity; provided actionable feedback to improve system reliability and adherence to design patterns.

Python Data Pipeline & Automation Framework (HCL Technologies)

- Engineered **Python** scripts for ETL and data pipeline automation, leveraging **pandas** and **NumPy** to process, validate, and transform large datasets for scheduled reporting.
- Designed SQL queries and schema changes in **Oracle**, **PostgreSQL**, and **MySQL** to optimize data retrieval and ensure data integrity across enterprise systems.
- Debugged and optimized pipeline performance, identifying bottlenecks and proposing solutions that improved data processing efficiency and reduced execution time by >20%.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
