

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and incident response** for enterprise Java/.NET applications across **AWS** infrastructure, using **Splunk, CloudWatch, and Dynatrace** to detect and resolve P1/P2 incidents with strict SLA compliance; demonstrated ability to investigate real-world system failures and validate solutions under pressure.
- Developed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; wrote shell scripts for **Linux** log analysis and system monitoring, directly supporting threat detection and operational visibility across production environments.
- Built and maintained **REST APIs** using **Java Spring Boot**, implementing secure coding practices and code review processes via **Git** and **Jenkins CI/CD** pipelines; demonstrated ability to navigate and patch codebases in a collaborative, quality-focused environment.
- Performed **SQL-based data validation** and schema analysis across **PostgreSQL, MySQL, and Oracle** databases; executed ad-hoc queries to investigate data integrity issues and support forensic-style analysis of system state and anomalies.
- Containerized enterprise applications using **Docker** and deployed to **AWS (EC2, S3, Lambda)**; gained hands-on experience with infrastructure-as-code principles and cloud-native security considerations in production environments.
- Completed **MSc in Data Analytics** (National College of Ireland, Dublin) with coursework in threat analysis, statistical validation, and technical report writing; certified in **Full Stack Java Spring Boot & Angular** and **Python Programming**; achieved **IELTS Band 7/9** for technical communication.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Security & Monitoring Tools – Splunk, Dynatrace, CloudWatch, incident response, log analysis.

Programming & Scripting – Python, Java, SQL, shell scripting, REST API development.

Frameworks & Libraries – Spring Boot, Flask, FastAPI, pandas, NumPy.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, Jira, code review.

Databases – PostgreSQL, MySQL, Oracle, data validation, schema analysis.

Certifications & Education – MSc Data Analytics, Bachelor of Engineering, Full Stack Java Spring Boot & Angular, IELTS Band 7/9.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Owned production support and **SLA management** for critical Java/.NET applications, responding to P1/P2 incidents using **Splunk, CloudWatch, and Dynatrace** to identify root causes and validate fixes in real-world deployment environments.
- Analyzed system logs and performance metrics to detect anomalies and validate the accuracy of automated alerts; documented findings and security-relevant technical explanations for cross-functional incident reviews.
- Collaborated with development teams to patch vulnerabilities and improve system reliability; demonstrated proficiency in navigating complex codebases and understanding threat vectors in production infrastructure.

Data Pipeline Automation & Infrastructure Security (HCL Technologies)

- Designed and implemented **Python-based ETL automation scripts** and scheduled reporting pipelines; wrote **shell scripts** for **Linux** system monitoring and forensic-style log analysis across distributed environments.
- Validated data integrity and system state through **SQL queries** against **PostgreSQL, MySQL, and Oracle** databases; provided technical feedback on data accuracy and security controls.
- Containerized applications using **Docker** and deployed to **AWS (EC2, S3, Lambda)**; gained hands-on experience evaluating infrastructure security configurations and cloud-native defense strategies.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
