PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **enterprise Java and .NET application outputs** in production using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and rapid resolution of P1/P2 incidents through rigorous technical analysis and root-cause investigation.
- Designed and implemented **Python-based data pipelines and ETL workflows** for quantitative analysis, validation, and automated reporting across enterprise systems, demonstrating hands-on experience with **statistical data processing** and **predictive data validation**.
- Developed **REST APIs and feature enhancements** using **Java Spring Boot**, requiring careful code review, technical documentation, and understanding of how analytical outputs integrate into live systems.
- Performed extensive **SQL analysis** across **PostgreSQL, MySQL, and Oracle** databases—writing complex queries, validating data integrity, and designing schema changes to support accurate reporting and decision-making.
- Built and maintained **CI/CD pipelines with Jenkins and Git**, establishing code quality gates and peer review processes that directly shaped technical accuracy and reliability of deployed analytical systems.
- Completed **MSc in Data Analytics** (Feb 2026) with applied coursework in statistical inference, experimental design, and quantitative problem-solving, complementing **3.5 years** of hands-on production engineering experience.

SKILLS

Data & Statistical Analysis – Python, pandas, NumPy, SQL, statistical inference, experiment design, data validation.

Quantitative Programming – Python scripting, REST API development, analytical code, code documentation, peer review.

Cloud & Data Engineering – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, ETL, data pipelines.

Production Reliability – Splunk, Dynatrace, monitoring, incident response, SLA management, log analysis.

DevOps & Version Control – Jenkins, Git, CI/CD, Jira, Agile/Scrum.

Backend Development – Java Spring Boot, Flask, FastAPI, database design.

Professional Communication – Technical writing, IELTS Band 7/9, documentation, clear explanations of complex analysis.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Data Pipeline & Validation System (HCL Technologies)

- Architected and deployed **Python ETL pipelines** to process, validate, and report on large-scale quantitative datasets across multiple enterprise systems, ensuring **data integrity** and **statistical accuracy**.
- Integrated validation logic with **SQL queries** against **PostgreSQL and Oracle databases** to detect anomalies, verify statistical assumptions, and flag inconsistencies before analytical outputs reached production.
- Automated scheduled reporting using **Python scripting and cron jobs** on **Linux servers**, providing stakeholders with trustworthy, reproducible quantitative insights and reducing manual analysis time by ~40%.

Production Monitoring & Incident Analysis Framework (HCL Technologies)

- Designed technical assessment protocols using **Splunk and Dynatrace** to evaluate application performance data, identify root causes of quantitative discrepancies, and validate system outputs against expected statistical behavior.
- Authored clear, technical incident reports and remediation documentation, translating complex system logs and metrics into actionable insights for engineering and business stakeholders.
- Established peer code-review standards and **CI/CD validation gates** via **Jenkins pipelines** to ensure analytical code and API endpoints met accuracy and reliability benchmarks before deployment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
