PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **quantitative outputs** from enterprise systems across **Java/Spring Boot** and **Python** backends; identified root causes in **statistical anomalies** and data pipeline failures through rigorous analysis of logs, metrics, and system behavior.
- Designed and implemented **ETL pipelines** and **data validation frameworks** using **Python, pandas, NumPy** and **SQL** (PostgreSQL, MySQL, Oracle); ensured data integrity and accuracy for downstream analytical and reporting systems.
- Developed **analytical code** and **automated reporting solutions** using **Python scripting** for scheduled data analysis, forecasting, and performance metrics; wrote clear technical documentation and code reviews following best practices.
- Applied **statistical methods** including hypothesis testing, regression analysis, and **time-series analysis** to troubleshoot production incidents and optimize application performance; provided data-driven insights to shape system reliability improvements.
- Demonstrated hands-on **coding proficiency** across **Python, Java, REST APIs**, and **SQL**; successfully reviewed and refactored analytical code end-to-end while maintaining code quality and clarity for cross-functional teams.
- Completed **MSc in Data Analytics** with advanced study in statistical modeling, experimental design, and quantitative reasoning; actively applied academic knowledge to real-world data engineering and system optimization challenges in production environments.

SKILLS

Quantitative & Analytical – Statistical analysis, hypothesis testing, regression analysis, time-series forecasting, experimental design, data validation.

Programming & Coding – Python, Java, SQL, REST APIs, shell scripting, analytical code development and review.

Data Engineering & ETL – Python (pandas, NumPy), PostgreSQL, MySQL, Oracle, data pipelines, ETL design, reporting automation.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins CI/CD, Git, Linux.

Frameworks & Tools – Spring Boot, Flask, FastAPI, Splunk, Dynatrace, Jira, technical writing and documentation.

Qualifications – MSc Data Analytics, BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular certification.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Data Pipeline & Incident Analysis (HCL Technologies)

- Designed and maintained **Python-based ETL pipelines** processing enterprise data across **PostgreSQL and Oracle** databases; implemented **data validation frameworks** to catch anomalies and ensure statistical accuracy.
- Analyzed **production incidents** using **Splunk, CloudWatch, and Dynatrace**; applied statistical reasoning to identify root causes in system behavior and quantitative outputs, reducing SLA breaches by targeted remediation.
- Automated scheduled reporting and analytics delivery using **Python scripting and SQL**; documented analytical methodologies and provided code review feedback that improved data quality for downstream consumers.

API Development & System Validation (HCL Technologies)

- Developed **REST APIs** using **Java Spring Boot** and validated outputs through rigorous **SQL-based data analysis** and statistical testing; ensured quantitative correctness of computational endpoints.
- Containerized applications with **Docker** and deployed via **Jenkins CI/CD pipelines**; monitored system reliability using metrics from **CloudWatch and AWS Lambda**, applying statistical methods to optimize performance.
- Collaborated with cross-functional teams to design experiments and analyze **hypothesis-driven improvements** to application behavior; wrote clear technical documentation explaining model behavior and analytical decisions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
