PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed **Python**-based **data pipelines** and **ETL workflows** for enterprise analytics, processing multi-source datasets and validating data integrity across **PostgreSQL, MySQL, and Oracle** databases.
- Evaluated production system behavior using **Splunk, CloudWatch, and Dynatrace**, performing root-cause analysis on **P1/P2 incidents** and providing technical recommendations that improved system reliability and SLA compliance.
- Developed and maintained **REST APIs** using **Java Spring Boot**, writing end-to-end analytical and application code with attention to correctness, performance, and maintainability across **AWS** infrastructure (**EC2, S3, Lambda**).
- Built automated reporting solutions using **Python** scripting, **pandas**, and **NumPy** to surface insights from operational and business data, enabling data-driven decision-making for cross-functional teams.
- Collaborated on **CI/CD pipelines** with **Jenkins** and **Git**, participated in code reviews, and contributed to Agile ceremonies—developing strong practices in writing clear, documented, and technically sound code.
- Completed **MSc in Data Analytics** with coursework in statistical methods, predictive modeling, and experiment design; demonstrated quantitative reasoning across real-world datasets and analytical frameworks.

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting, Git.

Data Engineering & Analytics – pandas, NumPy, ETL pipelines, data validation, PostgreSQL, MySQL, Oracle.

Backend & API Development – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Linux.

Monitoring & Observability – Splunk, Dynatrace, incident response, SLA management.

Quantitative & Statistical Methods – Hypothesis testing, regression analysis, predictive modeling, experiment design, time-series analysis.

Credentials – IELTS Academic Band 7/9, MSc Data Analytics (National College of Ireland), BE Computer Science, Python & Web Development (Coursera).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Data Pipeline & Analytics Automation (HCL Technologies)

- Architected **Python**-based **ETL workflows** to ingest, transform, and validate multi-terabyte datasets from heterogeneous sources into **PostgreSQL** data warehouse.

- Implemented scheduled reporting automation using **pandas** and **NumPy**, reducing manual analysis time by ~40% and enabling stakeholders to access real-time business metrics.
- Designed **SQL** schema optimizations and wrote complex queries for ad-hoc data validation, ensuring data quality and consistency across downstream analytical systems.

Spring Boot Microservice Development & Reliability Engineering (HCL Technologies)

- Developed and maintained microservices using **Java Spring Boot**, implementing **REST APIs** that processed analytical requests with high accuracy and low latency across distributed systems.
- Conducted production monitoring and incident response using **Splunk, CloudWatch, and Dynatrace**, diagnosing performance bottlenecks and providing technical explanations for system behavior that shaped operational improvements.
- Contributed to **CI/CD pipeline** enhancements using **Jenkins** and **Git**, enforcing code quality standards through rigorous reviews and documenting analytical logic for team maintainability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
